Statutory consultation: network licence for the Core Valley Lines Infrastructure Operator of last resort

Transport for Wales ("TfW") is putting in place contingency arrangements for the Core Valley Lines in the event it needs to step in to provide an infrastructure manager for the Core Valley Lines network. As part of this, it has set up a company, Wales Infrastructure Manager of Last Resort Limited ("WIMLR"), to act as the infrastructure manager of the last resort. In order to be able to fulfil its role in the event that it is required to take these services on, it needs to have been granted a network licence. This letter sets out the background and forms our statutory consultation. If you wish to make a response, please do so by 17 January 2020.

Introduction

The Welsh Ministers (Transfer of Functions) (Railways) Order 2018, transferred the responsibility for procuring and managing rail services in Wales from the Department for Transport to the Welsh Ministers.

In June 2018, Welsh Ministers awarded the rail franchise for Wales & Borders to Keolis Amey Wales Cymru Limited ("KAWCL"). The rail services are operated by Keolis Amey Operations / Gweithrediadau Keolis Amey Limited ("KAOL"), operating as TfW Rail Services. As well as the rail services, the franchise award also covers the future operation, maintenance and assessment of renewals and upgrades of the railway network.

The CVL assets are currently owned by Network Rail and will be transferred from Network Rail to TfW, who will lease them to Amey Keolis Infrastructure / Seilwaith Amey Keolis Limited ("AKIL"). AKIL will carry out infrastructure services on behalf of KAWCL. As a result, AKIL will become the infrastructure manager for the CVL network. The transfer is conditional on Welsh Ministers' approval and certain conditions being met in the transfer arrangements between Network Rail and TfW.

The contractual terms of the award are set out in the Grant Agreement entered into between Welsh Ministers and KAWCL on 4 June 2018 ("the Grant Agreement"). This covers the obligations to operate the rail services as part of the Wales & Borders Franchise and to manage the CVL infrastructure. TfW acts on behalf Welsh Ministers to manage the Grant

Agreement and a copy of the Grant Agreement is available on the TfW website. The agreement runs until October 2033.

Network operator of last resort

TfW has set up WIMLR as a shell company so that it may provide infrastructure manager services for the CVL in circumstances where the operation, maintenance, renewal and replacement of the infrastructure is needed to be carried out in the absence of a franchise agreement. WIMLR will be a distinct legal entity from the passenger service Operator of Last Resort and will remain dormant unless the Welsh Ministers are required to mobilise it.

Access and licensing

There are a number of agreements into which WIMLR must enter if it needs to become operational. To operate as an infrastructure manager for the CVL, WIMLR will need to enter into a **track access agreement** with each train operator wishing to use the CVL. Subject to ORR's approval, the contracted CVL infrastructure manager can novate its track access rights and obligations to WIMLR.

The arrangements for **station access** will depend on circumstances; whether WIMLR would operate the stations on the CVL or whether it would appoint a Station Facility Owner (SFO) to operate them on its behalf. If the former, WIMLR will need to enter into Station Access Agreements with each train operator that wishes to call at stations on the CVL. Those agreements will require ORR's approval. If the latter, WIMLR will enter into a lease with its appointed SFO. ORR does not regulate leases. The SFO will then need to enter into Station Access Agreements with each train operator that wishes to call at stations on the CVL. Those agreements will require ORR's approval. In both instances, Station Access Agreements can be novated in accordance with the novation provisions contained in the agreements and subject to ORR's approval.

WIMLR will also need to enter into **connection contracts** with Network Rail for the two connection points between the Network Rail and CVL networks. To ensure the connection points remain open – and that train services continue to operate without interruption – there is a term in the connection contracts that allows Welsh Ministers or its appointed nominee (e.g. WIMLR) to step-in to the relevant connection agreements.

We have already published the **network licence** that we will issue to AKIL once it is ready to operate the CVL post-transfer.¹ That licence was developed in the context of AKIL's contracted management of the CVL through the Grant Agreement and the scope of our regulatory role. WIMLR would have the same function as AKIL and we propose to issue essentially the same form of network licence to WIMLR - with some amendment to reflect that WIMLR will not be bound contractually by the Grant Agreement.

The proposed licence is at **Annex A**. Our statutory notice is at **Annex B**.
