Network licence condition 5: consent of the Office of Rail Regulation

1. On 5 February 2013, Network Rail Infrastructure Limited (Network Rail) applied to the Office of Rail Regulation for its consent under paragraph 1 of condition 5 of its network licence to an arrangement under which Network Rail would provide a class 57 locomotive to DB Schenker (DBS) for a period of up to six weeks from 1 March 2013 to undertake route driver learning. This is ultimately intended to facilitate First Great Western's services diverted over Easter.
2. The arrangement would entail the licence holder having an interest in the ownership of a railway vehicle that it is not operating for the purposes of network operation, in contravention of condition 5 of its network licence.
3. On the basis of the application dated 5 February 2013, and having had regard to our duties under section 4 of the Railways Act 1993, to the information supplied by Network Rail and in particular to your assurance that hiring the vehicle will not affect your core business, we consent for the purposes of paragraph 1 of condition 5 of the network licence to the licence holder entering into the proposed arrangement. The consent applies from 1 March 2013.
4. We may at any time modify or revoke this consent after consulting you if it appears to us to be requisite or expedient to do so, having regard to the duties imposed on us by section 4 of the Railways Act.
