

Application to the Office of Rail Regulation for a passenger track access agreement, or amendment to a passenger track access agreement under sections 17-22A of the Railways Act 1993

1. Introduction

Please use this form to apply to the Office of Rail Regulation (ORR) for:

- directions under section 17 of the Railways Act 1993 for a new track access contract. Section 17 allows companies who want the right to use a railway facility (including Network Rail's network) to apply to ORR for access if they are not able (for whatever reason) to reach agreement with the facility owner.
- approval under section 18 of the Railways Act 1993 for a new track access contract. Section 18 allows companies to apply for approval if they have agreed terms with the facility owner.
- approval of a proposed amendment (agreed by both parties) under section 22 of the Railways Act 1993 to an existing track access contract.
- directions under section 22A of the Railways Act 1993 for an amendment to an existing track access contract. Section 22A allows anyone seeking an amendment to an existing track access contract which allows the operation of more extensive services to apply for a compulsory amendment if they are not able (for whatever reason) to reach agreement with the facility owner.

If it is the facility owner, Network Rail will carry out a pre-application consultation. In this case fill in this form up to section 7.3. You should fill in the rest of the form after the consultation and before applying to ORR. If you are unhappy with the facility owner carrying out the consultation, you should ask ORR to do so. If this is the case, you should complete this form in full before submitting it to us.

The form sets out ORR's standard information requirements for considering applications. It cross-refers throughout to our criteria and procedures (C&Ps). The C&Ps explain the process, timings and the issues we will expect to consider. You should use the published model passenger track access contract as your starting point when drafting the contract or amendments you want. Please read the C&Ps and the Code of Practice before applying.

We are happy to talk to you before you apply. Please contact us [here](#).

You can download a copy of this form, and of ORR's model track access contract, from the ORR website: www.rail-reg.gov.uk.

Network Rail Infrastructure Limited ("Network Rail") and RES (together 'the parties') wish to extend the contract by amending the Expiry Date from 30 August 2014 to 31 July 2015.

The parties acknowledge that such an amendment is usually permitted under ORR's Passenger Access (Model Charter Track Access Contract) General Approval 2009 (the 'General Approval'). However, the contract has recently been amended to incorporate the changes set out in ORR's PR13 Charter Operator Track Access Agreement Review Notice and, therefore, does not conform to the Model Contract Charter Passenger Services currently published by ORR which has not yet been similarly amended. Therefore, instead of progressing this amendment by means of the General Approval, the parties are instead seeking ORR's specific approval under section 22 of the Railways Act 1993 (as amended).

It should be noted that no industry consultation is intended to be undertaken by the parties in respect of this application. This is because this type of amendment is usually progressed by means of the General Approval which does not require such consultation.

3.2 Terms not agreed with the facility owner (for applications under sections 17 or 22A only): please set out here any areas of the application which have not been agreed, the reasons for the failure to agree and the reasons for seeking these provisions. **C&Ps para 3.102**

- instances where the proposal departs from the charging and/or performance regimes established by ORR's latest periodic review (or subsequent interim reviews) as reflected in ORR's model passenger track access contract, including the financial implications (e.g. establishment of an access charge supplement or rebate). **C&Ps paras 5.1-5.44**
- new processes (e.g. a self-modification provision) which have been added. Please also demonstrate fully how this new process is robust and complete. **C&Ps paras 6.2-6.3**
