

## **Application to the Office of Rail Regulation for a passenger track access agreement, or amendment to a passenger track access agreement under sections 17-22A of the Railways Act 1993**

### **1. Introduction**

Please use this form to apply to the Office of Rail Regulation (ORR) for:

- directions under section 17 of the Railways Act 1993 for a new track access contract. Section 17 allows companies who want the right to use a railway facility (including Network Rail's network) to apply to ORR for access if they are not able (for whatever reason) to reach agreement with the facility owner.
- approval under section 18 of the Railways Act 1993 for a new track access contract. Section 18 allows companies to apply for approval if they have agreed terms with the facility owner.
- approval of a proposed amendment (agreed by both parties) under section 22 of the Railways Act 1993 to an existing track access contract.
- directions under section 22A of the Railways Act 1993 for an amendment to an existing track access contract. Section 22A allows anyone seeking an amendment to an existing track access contract which allows the operation of more extensive services to apply for a compulsory amendment if they are not able (for whatever reason) to reach agreement with the facility owner.

If it is the facility owner, Network Rail will carry out a pre-application consultation. In this case fill in this form up to section 7.3. You should fill in the rest of the form after the consultation and before applying to ORR. If you are unhappy with the facility owner carrying out the consultation, you should ask ORR to do so. If this is the case, you should complete this form in full before submitting it to us.

The form sets out ORR's standard information requirements for considering applications. It cross-refers throughout to our [criteria and procedures](#) (C&Ps). The C&Ps explain the process, timings and the issues we will expect to consider. You should use the published [model passenger track access contract](#) as your starting point when drafting the contract or amendments you want. Please read the C&Ps and the Code of Practice before applying.

We are happy to talk to you before you apply. Please contact us [here](#).

You can download a copy of this form, and of ORR's model track access contract, from the ORR website: [www.rail-reg.gov.uk](http://www.rail-reg.gov.uk).

Form **P**

433399

**Date of commencement:** 14<sup>th</sup> Dec 2014.

**End date:** expiry of the SSWT track access contract on PCD in December 2018.

**Purpose:** To amend Tables 2.1 and 4.1 of Schedule 5 to reflect changes in the SSWT Dec 2014 timetable:

- HY08 Waterloo - Weymouth: 17:24 (Sat) Basingstoke - Southampton Central to be cancelled and operate in reverse to form a 17:39 (Sat) from Southampton Central to Basingstoke.
- HY03 Waterloo – West of England: To include the new Cranbrook Station as an additional station in the calling pattern for Waterloo – Exeter St. David's services.

**3.2 Terms not agreed with the facility owner (for applications under sections 17 or 22A only):** please set out here any areas of the application which have not been agreed, the reasons for the failure to agree and the reasons for seeking these provisions. **C&Ps para 3.102**

N/A

**3.3 Departures from ORR's model passenger track access contract:** please set out and explain here any:

- areas where the drafting of the application changes ORR's published template passenger track access contract (as appropriate, cross-referencing to the answers below). Please also explain why these departures have been made. **C&Ps paras 2.34-2.37**
- instances where the proposal departs from the charging and/or performance regimes established by ORR's latest periodic review (or subsequent interim reviews) as reflected in ORR's model passenger track access contract, including the financial implications (e.g. establishment of an access charge supplement or rebate). **C&Ps paras 5.1-5.44**
- new processes (e.g. a self-modification provision) which have been added. Please also demonstrate fully how this new process is robust and complete. **C&Ps paras 6.2-6.3**

N/A

## 4. The expression of access rights and the use of capacity

**4.1 Benefits:** please set out what specific benefits the proposal will achieve, including a justification for requiring the rights and their characteristics. Please provide full descriptions of any new rights required, as compared to the previous contract (in the case of an amendment). Please also describe any significant changes in the pattern of services, their benefits to passengers and any impact on other operators, including freight operators. Where appropriate, please provide a fully marked-up version or document comparison of any tables in Schedule 5 which are being modified as a result of this application. **C&Ps paras 4.26-4.35**

- The sale of access rights will permit the local service 17:24 (Sat) Basingstoke - Southampton Central to be cancelled and operate in reverse to form a 17:39 (Sat) from Southampton Central to Basingstoke. This will involve the removal and then sale of a quantum right only and will not amend any other access rights associated with this service. This train will relieve the 17.35 to Romsey via Chandlers Ford and will particularly benefit shoppers and those attending matches at St. Mary's Stadium.

- The sale of access rights to include Cranbrook in the additional calling pattern for services to Exeter St. Davids will allow trains to serve the new community. Development of Cranbrook Station has been planned for several years and time to call at the station is already scheduled into the existing timetable for services to Exeter St. Davids.

**4.2 Adequacy:** please set out how you have satisfied yourself that there is enough network capacity for the services in the proposal. Please also set out whether there are any implications for overall network performance and the facility owner's maintenance and renewal activities. **C&Ps paras 4.12-4.45**

All of the Rights sought in the proposed supplemental agreement are consistent with Network Rail's offer to SSWT for the timetable commencing in Dec 2014 and have been approved by Network Rail's Sale of Access Rights Panel.

It is worth noting that the timings in the current timetable include allowance to stop at Cranbrook so while adding in Cranbrook will result in a deterioration in the timetable robustness, as it stands today, the paths are in accordance with planning rules and in effect the current timetable has excess allowance. The NR Route performance team have looked into the proposed calling patterns and have approved the sale of rights.

**4.3 Flexing rights:** please provide a general description of the extent of any limitations on the facility owner's flexing rights in the proposal. Please provide the rationale for the extent of any limitation on the flex provided, including any changes to pre-existing services, and the extent to which the provisions have been agreed with the facility owner. **C&Ps paras 2.27-2.33**

The proposed agreement does not change Network Rail's flexing rights.

**4.4 Journey time protection:** please describe whether the proposed contract gives journey time protection to any services (by establishing maximum journey times, fastest key journey times or maximum key journey times), and explain the reasons for this, with reference to ORR's criteria. **C&Ps paras 8.90-8.103**

There is no change to existing rights.

**4.5 Specified equipment:** please give full details of any changes to specified equipment (rolling stock), including timescales, and how much of the vehicle and route acceptance procedure in the Network Code (Part F) has been completed. Please explain whether you have, or will have, the rolling stock necessary to exercise the rights being sought. **C&Ps paras 8.87-8.90**

N/A

**4.6 Franchise obligations:** please explain whether the proposed services are necessary to fulfil obligations under a franchise or concession agreement. **C&Ps paras 4.3-4.4**

N/A

**4.7 Public funding:** please state whether (and if so to what extent) the proposed services are subject to financial support from central or local government (other than the Department for Transport or Transport Scotland), including Passenger Transport Executives. Please also provide a point of contact at that body. **C&Ps paras 3.52, 4.25, 4.35-4.39**

N/A

**4.8 Passenger Focus:** please state whether (and if so to what extent) the proposed services have been discussed with Passenger Focus. Please also provide copies of any relevant correspondence. **C&Ps para 4.39**

Passenger Focus has been consulted on this application.

**4.9 Route utilisation strategies (RUSs):** if applicable, please state which RUSs (including the Freight RUS) are considered relevant to this application and whether the proposed rights are consistent with that RUS. If the proposed rights are not consistent, please explain the reasons for this. **C&Ps paras 4.5-4.8**

N/A
