#### NOTES TO THE FINANCIAL STATEMENTS

#### PERIOD ENDED 31 DECEMBER 2004

#### 1. Accounting policies

#### Basis of accounting

The accounts are prepared under the historical cost convention and the accounting policies set out below and in accordance with applicable accounting standards.

#### Cash flow statement

The Company is a wholly owned subsidiary and the ultimate parent company has prepared a group cash flow statement. Accordingly, under FRS I, the Company is exempt from preparing a cash flow statement.

#### **Turnover**

Passenger income represents agreed amounts attributed to the Company by the income allocation systems of the Railway Settlement Plan Limited, principally in respect of passenger receipts, based on detailed surveys of passenger flows. The attributed share of season ticket income is deferred within creditors and released to the profit and loss account over the life of the relevant season ticket. Franchise payments relate to amounts received from PTEs and the SRA under the Franchise Agreement. Other income arises from the provision of ancillary services to external parties.

#### Performance and incentive regimes

Payments and receipts under performance and incentive regimes have been included within cost of sales.

#### Fixed assets and depreciation

Buildings and infrastructure are capitalised at cost subject to a minimum monetary level of £10,000. Plant and equipment is capitalised at cost subject to a minimum monetary level of £1,000. Depreciation is provided on a straight line basis over periods related to the estimated useful economic lives of assets. The lives used for the major categories of assets are:

Buildings

up to 40 years

Plant and equipment

3-20 years

#### Capital grants

Capital grants are credited to deferred grant income on the balance sheet and released to the profit and loss account over the estimated useful economic lives of the related assets.

#### Leasing

Rentals under operating leases are charged to the profit and loss account as they are incurred.

#### **Deferred taxation**

The Company provides for deferred tax on all timing differences except those arising from the revaluation of fixed assets for which there is no binding agreement to sell. Deferred tax is calculated at the rates at which it is estimated the tax will arise. Deferred tax is not discounted to net present value.

#### Stocks and work in progress

Stock is stated at the lower of cost and net realisable value.

#### Pensions

The Railways Pension Scheme ("RPS") provides pension benefits to the majority of current employees on a defined benefit basis. The accounting policy is to charge the contributions to the pension scheme to the profit and loss account, in accordance with actuarial advice. This is on the basis that there is no recourse to the Company for any over or under funding of the Arriva Trains Northern Limited section of the RPS following expiry of the franchise. Consequently, there are no additional disclosures required under Financial Reporting Standard 17 "Retirement Benefits".
