- (e) whilst exercising any permissions conferred by Condition 1.1.15(b) any other restriction on such permissions which may from time to time be reasonably imposed by the Station Facility Owner in accordance with the Station Access Agreement.

1.1.18 “an after tax basis”: References to an after tax basis shall be construed to mean payments of the monies which are the subject of the indemnity after:

- (a) first, if the cost, loss or other matter in respect of which the monies are to be paid gives rise to any relief from taxation for the beneficiary of the indemnity, by reducing the amount of such payment by the amount of tax saved (or deemed to be saved on the basis of the assumption set out below) by the beneficiary by virtue of the relief;
- (b) secondly, if the indemnity is subject to taxation in the hands of the beneficiary, by increasing the amount of the payment after any reduction under Condition A1.1.18(a) such that the net amount retained by the beneficiary after the deduction of the tax suffered (or deemed to be suffered on the basis of the assumptions set out below) by the beneficiary in respect of such indemnity payment equals the amount of the payment after any reduction under Condition A1.1.18(a);

and, in applying the above, it shall be assumed that :

- (c) for the purposes of Condition A1.1.18(a), the amount of tax saved shall be the difference between :
 - (i) the amount of tax which would have been payable by the beneficiary in respect of the accounting period of the beneficiary in which the relief arises, on the assumption that the beneficiary is subject to tax on its Taxable Profits in such accounting period; and
 - (ii) the amount of tax which would have been payable by the beneficiary in respect of such accounting period, on the assumption that the beneficiary is subject to tax on an amount equal to its Taxable Profits in such accounting period minus the amount of such relief;

and, if the beneficiary's Taxable Profits in the relevant accounting period are less than such relief, it shall be assumed for the purposes of both calculations that the Taxable Profits in such accounting period are equal to such relief;

- (d) for the purposes of Condition A1.1.18(b), the amount of the

deduction in respect of any tax suffered shall be the difference between :

- (i) the amount of tax which would have been payable by the beneficiary in respect of the accounting period of the beneficiary in which the indemnity payment is taxable, on the assumption that the beneficiary is subject to tax on its Taxable Profits in such accounting period; and
- (ii) the amount of tax which would have been payable by the beneficiary in respect of such accounting period, on the assumption that the beneficiary is subject to tax on an amount equal to its Taxable Profits in such accounting period minus the amount of such indemnity payment as increased under Condition A1.1.18(b) (the “grossed up amount”);

and, if the beneficiary’s Taxable Profits in the relevant accounting period are less than the grossed up amount, it shall be assumed for the purposes of both calculations that the Taxable Profits in such accounting period are equal to the grossed up amount; and

- (e) for the purposes of applying the above clauses on each occasion that an indemnity payment falls to be made, the beneficiary’s “Taxable Profits” in the relevant accounting period shall be deemed to be the beneficiary’s profits in such accounting period (as defined in Section 6 of the Income and Corporation Taxes Act 1988 (“ICTA”)), as reduced by all reliefs other than the relief referred to in Condition A.1.1.18(a), arising in respect of such occasion and trading losses carried back under sub-section 393A(1)(b) of ICTA, but including, for the avoidance of doubt, charges on income, group relief and trading losses carried forward (to the extent not attributable to the relief referred to in Condition A1.1.18(a) arising in respect of such occasion).

In any case where an indemnity payment falls to be made on an “after tax basis”, the adjustments referred to above shall be calculated by the auditors of the beneficiary (acting as experts and not as arbitrators) whose calculations shall be binding on the parties in the absence of manifest error and whose costs shall be borne in equal shares by the beneficiary and the indemnifying party and, if such adjustments cannot be conclusively determined at the time when the indemnity payment is required to be made, the auditors shall provide an estimate of the adjustments which are likely to be required and the indemnity payment shall be made on the basis of such estimate and, as and when such adjustments can be conclusively determined, such payment will be made either by or to the beneficiary as may be required to give effect to the above paragraphs.

- 4.1 The Proposer of a Material Change Proposal shall submit that Proposal, together with any associated documentation, to each of the Material Change Consultees together with a copy of the Proposal for information only to Network Rail. The Proposal must specify the date on which the Consultation Period ends and must include (in as much detail as is available at the time of the Proposal, recognising that it will not always be possible to give more than outline or generic information at the time of the Proposal):

4.3 Although the information contained in the Material Change Proposal may be of an outline or generic nature it must nevertheless contain such detail as is reasonably necessary and appropriate to enable the Material Change Consultees and Non-Qualifying Material Change Consultees to determine whether such Proposal if implemented would put that Consultee in breach of a Legal Requirement or of its Franchise Agreement, Station Operator's Licence or Network Licence (as the case may be).

4.4 During the Consultation Period, the Material Change Consultees may do one of the following:

4.4.1 give a response Accepting the Material Change Proposal unconditionally and agreeing to enter into the Co-operation Agreement; or

4.5.3 give no response.

- 4.6 If no response is made by a Material Change Consultee during the Consultation Period then the relevant Material Change Consultee is deemed to have Accepted the Material Change and to have agreed to enter into the Co-operation Agreement at the end of the Consultation Period.
- 4.7 All the Material Change Consultees and the Non-Qualifying Material Change Consultees may agree by notice to the Proposer at any time that the Consultation Period shall be a shorter period than that specified in the Material Change Proposal.
- 4.8 The cost of implementing an Accepted Material Change Proposal, and any increase in the running costs of the Station resulting directly from such implementation, may be apportioned between the Proposer and the Material Change Consultees in accordance with the terms set out in the Proposal.
- 4.9 If a Material Change Consultee wishes to object to a Material Change Proposal it may only do so on one of the grounds set out in this Condition by giving notice to the Proposer during the Consultation Period and stating the grounds for its objection with supporting evidence of those grounds in such detail as is reasonably necessary and appropriate to enable the Proposer to evaluate it properly having regard to the grounds of the objection. The only grounds on which a Material Change Consultee may object to a Material Change Proposal are that:
- 4.9.1 the information to consider the Material Change Proposal is incomplete or inaccurate having regard to:
- (a) the nature of the Material Change Proposal; and
 - (b) the information required to accompany a Material Change Proposal (as set out in Condition C4.1 which to avoid doubt need only comprise outline or generic details of the Proposal having regard to the information available at the time the Proposal is made); and/or
- 4.9.2 the Material Change Proposal if implemented would put the Material Change Consultee in breach of a Legal Requirement or of its Franchise Agreement, Station Operator's Licence or Network Licence (as the case may be); and/or
- 4.9.3 the Material Change Proposal is not consistent with the ORR's Investment Framework Policy and Guidelines as published from time to time; and/or
- 4.9.4 a Material Change Consultee considers that the completed Material Change Proposal would be contrary to the safe and efficient operation of the Station; and/or
- 4.9.5 implementation of the Material Change Proposal will result, or will be more likely than not to result, in a material adverse effect, whether permanent or temporary on
- (a) the operation of the Station or the Network; or
 - (b) the use of the Station by any Material Change Consultee's passengers; or
 - (c) the Material Change Consultee's ability to perform any obligations or exercise any discretions which it has in relation to railway services; and/or
- 4.9.6 in a manner specified by the Material Change Consultee, the implementation of the Material Change Proposal will, or will be more likely than not to, materially disrupt, interfere with, or otherwise be incompatible with the implementation of

other specified works on or at the Station; and/or

- 4.9.7 the amount or other terms of the Relevant Undertaking offered by the Proposer are in some other respect insufficient or inappropriate for reasons specified by the Material Change Consultee; and/or
- 4.9.8 the Material Change Consultee who is required to pay a proportion of the costs of a Material Change Proposal believes that the additional revenue which that Material Change Consultee expects to gain as a result of implementation of the Proposal will be, or is more likely than not to be less than it is proposed will cost the Material Change Consultee to pay for, or contribute to, such implementation; and/or
- 4.9.9 in addition, if the Proposer of the Material Change is a Station Investor:
- (a) the Material Change Proposal does not provide a significant improvement to Common Station Service or Common Station Amenities; and/or
 - (b) if the Material Change Proposal is an offer to fund or contribute to the cost of carrying out works or to pay a sum of money for investment in the railway industry, the Material Change Proposal does not provide a cash contribution which is at least equivalent to the Station Investor's Qualification (which RfL or the Relevant Operator agree to invest in the railway industry by acceptance of the Material Change Proposal) to RfL or a Relevant Operator; and/or
 - (c) the Material Change Proposal is not accompanied by an undertaking in the terms referred to in Condition C4.1.8.
- 4.10 If a Material Change Consultee purports to object to a Material Change Proposal on any other ground, including but not limited to an objection solely on the grounds of entitlement to compensation, such objection shall be void and (unless it has also objected on one of the grounds set out in this Condition) the Material Change Consultee shall be deemed to have Accepted the Material Change at the end of the Consultation Period.
- 4.11 When objecting on any grounds as set out in Conditions C4.9.5, C4.9.6, C4.9.7, C4.9.8 or C4.9.9, the Material Change Consultee shall demonstrate, with supporting evidence, in its objection that the compensation payable under the Co-operation Agreement is in some respect insufficient or inappropriate. If the Proposer disagrees with the Material Change Consultee on such compensation, the Proposer may refer the matter to the Dispute Resolution Procedure.
- 4.12 At the end of the Consultation Period, if any objections have been received, the Proposer must give them due consideration and respond to the relevant Material Change Consultee(s) within the Response Period. If the Proposer considers that an objection made on one of the grounds set out in Conditions C4.5.2 or C4.9 (as the case may be) is not valid it may within the Response Period refer the question of the validity of the objection for resolution under the Dispute Resolution Procedure.
- 4.13 If any objection (whether accepted or determined pursuant to the Dispute Resolution Procedure as having been validly made) requires any amendment to the Material Change Proposal the Proposer shall issue an amended Material Change Proposal incorporating such amendment or amendments and identifying the changes to the original Proposal, and the provisions of Conditions C4.1 to C4.12 inclusive shall apply as if set out again in full and the Consultation Period in respect of the amended Material Change Proposal (the "Second Consultation Period") shall be 20 Business Days (or longer if the Proposer so elects).

- 4.14 If during the Second Consultation Period a Material Change Consultee or Non-Qualifying Material Change Consultee objects to the amended Material Change Proposal then the Proposer may refer the question of the validity of the objection for resolution under the Dispute Resolution Procedure as soon as practicable after receiving that objection.
- 4.15 Any procedure for the agreement or determination of compensation pursuant to the provisions of a Co-operation Agreement shall not prevent or delay the Registration or implementation of the Material Change.
- 4.16 If the Material Change Consultee does not raise a valid objection, or it is determined that it did not raise a valid objection, to the Material Change Proposal under Condition C4.9 at the end of the Consultation Period or (if applicable) the end of the Second Consultation Period, the Material Change Consultee shall have Accepted and shall sign the Co-operation Agreement as proposed in the Material Change Proposal, and if it fails to do so it shall be deemed to have Accepted the Co-operation Agreement as proposed in the Material Change Proposal.
- 4.17 Registration of a Material Change does not remove the requirement to obtain other associated approvals either under any Relevant Agreement or under any standard industry procedures such as detailed technical approvals, method statements, lease amendments, etc. which, wherever possible, should be progressed as part of the Material Change consultation process.
- 4.18 The Proposer shall pay to each Material Change Consultee all costs reasonably incurred by that Consultee in evaluating and responding to the Material Change Proposal during the Consultation Period after which time such costs shall be dealt with in accordance with the Co-operation Agreement (if any). Where such costs are not dealt with under the Co-operation Agreement, these shall be agreed between the parties or in the event of dispute shall be determined on the application of either party under the Dispute Resolution Procedure and shall be paid within 20 Business Days of the agreement or determination of such amounts.
- 4.19 If at any time after the end of the Consultation Period or (if applicable) any Second Consultation Period a Material Change Proposal is materially modified for any reason (including without limitation because it is only partially implemented or is withdrawn following commencement of implementation) then the Proposer shall treat the modification as a Change or (as the case may be) an Exempt Activity to which the provisions of this Part C shall apply.

Condition C5 Conditional Acceptance of a Material Change Proposal by RfL

- 5.1 Where RfL is a Material Change Consultee it shall be entitled to require as a condition of its acceptance of a Material Change Proposal that the implementation of the Proposal (or any part or parts of it) is subject to:
- 5.1.1 the Proposer, at RfL's direction, having entered into an Asset Protection Agreement with RfL and/or Network Rail; and
- 5.1.2 (where the Proposal is made by a Station Investor) the Proposer having entered into a Property Agreement, but it shall not be entitled to require any other condition of its consent in its role as landlord under any lease of the Station.
- 5.2 RfL and the Proposer shall each act reasonably in relation to the settlement of the terms and conditions of any Asset Protection Agreement required under Condition C5.1.1 but RfL

shall be entitled to require adherence to its reasonable requirements relating to asset protection and where the Asset Protection Agreement is with Network Rail the current ORR Asset Protection Policies and Guidelines in relation to settling the form of the Asset Protection Agreement.

- 5.3 RfL and the Proposer shall each act reasonably in relation to the settlement of the terms and conditions of any Property Agreement required under Condition C5.1.2.

Condition C6 Non-Discretionary Change

- 6.1 A party who is required to undertake an action which constitutes a Non-Discretionary Change shall submit a Proposal, together with any associated documentation, to each of the Notifiable Change Consultees as if that Proposal had been a Notifiable Change Proposal. The Proposal must set out the proposed change and the reason why it is a Non-Discretionary Change.
- 6.2 The Proposer of a Non-Discretionary Change shall be entitled to implement the relevant Non-Discretionary Change at any time whether or not the Representation Period has ended and regardless of whether it has received any representations if failure to do so would or would be reasonably likely to result in any breach of any relevant Legal Requirement, Direction or Safety Obligation, or would result in a breach of any provision of the Station Access Conditions. Under this Condition C6.2, the Proposer shall be entitled to implement the Non-Discretionary Change without regard to Conditions C7 (other than C7.1.1), C8, C9 or C10.
- 6.3 Other than as set out in Condition C6.2 the Non-Discretionary Change shall be treated as though it had been a Notifiable Change.
- 6.4 The provisions of Condition P3 shall have effect in relation to any costs of complying with or in consequence of any Non-Discretionary Change referred to in Condition C6.1.

Condition C7 Approval by the ORR

- 7.1 No Proposal to change these Station Access Conditions or Annexes whose implementation would:
- 7.1.1 require consequential amendments to a Station Access Agreement; or
- 7.1.2 materially diminish for a period in excess of 28 consecutive days the number of passengers or trains that are able to use the Station,
- shall take effect or be implemented unless and until the ORR shall have notified its approval of any such Proposal and any such consequential amendments (unless they fall wholly within a general approval given by the ORR pursuant to sections 22(2) or 22(3) of the Act).
- 7.2 ORR may choose to give an approval in principle only of a Proposal where it thinks it appropriate.

Condition C8 Submission of a Proposal to the ORR

- 8.1 On acceptance of a Notifiable Change, Material Change or Non-Discretionary Change in accordance with the procedures referred to in this Part the Proposer shall (subject to Condition C8.2) submit any Proposal requiring approval under Condition C7.1 to the ORR for its approval, together with a written memorandum explaining the reasons for the proposed change and setting out details of the conduct and outcome of the representation or consultation process (as the case may be) provided that no such approval shall be sought if and to the extent that (or, if applicable, for so long as):
- 8.1.1 the change in question shall fall wholly within a relevant general approval given by the ORR pursuant to sections 22(2) or 22(3) of the Act;
- 8.1.2 the Proposal requires the implementation and completion of any procedure pursuant to Part F or Part G of the Network Code, and the result of that procedure is pending; or
- 8.1.3. any other consents or approvals are required by any Statute to or from any third party to enable the implementation of the Proposal, and have not yet been obtained.

- 8.3 The Proposal requiring approval shall be submitted within 20 Business Days (which period may be extended with the consent of the Proposer and all relevant Consultees) following acceptance of a Proposal submitted under Condition C8.1, or satisfaction of the relevant conditions relating to the Proposal submitted under Condition C8.2 otherwise it shall lapse and no longer be effective.

Condition C9 Notification of the ORR's decision

- 9.1 The Proposer shall, as soon as reasonably practicable after it receives notice of the ORR's decision on an application for approval of an amendment pursuant to Condition C8, notify each Consultee of such decision.

Condition C10 Registration, Requisite Consents and Implementation

- 10.1 Any Notifiable Change, Material Change or Non-Discretionary Change which has been accepted (including a conditional acceptance under Condition C5) under the procedures referred to in this Part (including without limitation approval by the ORR under Condition C8) shall be registered with the ORR by Registration by:
- 10.1.1 the Proposer; or
- 10.1.2 any Relevant Operator or RfL if the relevant Proposer fails to do so following acceptance of such Proposal under the procedures referred to in this Part,
- but in the event that no party takes the necessary steps to achieve Registration within two months (which period may be extended with the consent of the Proposer and the relevant Consultee(s)) following acceptance of the relevant Proposal, then such Proposal shall lapse and no longer be effective.
- 10.2 Any documentation required as a consequence of any Notifiable Change, Material Change or Non-Discretionary Change which has been accepted under the procedures referred to in this Part shall be settled between the relevant parties each acting reasonably in relation to

the settlement of the terms and conditions of any such document and in the event of failure to agree on any of the terms and conditions of any such document either party may refer the matter to the Dispute Resolution Procedure. This Condition C10.2 shall not impede or delay the registration requirement referred to in Condition C10.1.

- 10.3 The Proposer shall use its reasonable endeavours to obtain all Requisite Consents as soon as practicable having regard to the nature of that consent and the matter to which it relates and in any event prior to implementation of the Notifiable Change, Material Change or Non-Discretionary Change (as the case may be) or (if the relevant Requisite Consent relates to a phase of the Notifiable Change, Material Change or Non-Discretionary Change or can only be obtained after the commencement of the Notifiable Change, Material Change or Non-Discretionary Change) the relevant part of the Notifiable Change, Material Change or Non-Discretionary Change and the requirement to obtain Requisite Consents (if any) shall not impede or delay the procedures referred to in this Part nor be used as a ground for objection to any Proposal.
- 10.4 Following Registration and before implementing the Notifiable Change, Material Change or the Non-Discretionary Change (as the case may be), the Proposer will issue an Implementation Notice to all the relevant Consultees and the ORR.
- 10.5 If no Implementation Notice is issued within three years of Registration (which period may be extended by the Proposer with the consent of all relevant Consultees) the relevant Notifiable Change, Material Change or the Non-Discretionary Change shall lapse and no longer be effective.
- 10.6 If an Implementation Notice is issued the Proposer must implement the relevant Proposal and then proceed diligently with it and if the Proposer does not commence implementation of the Relevant Proposal within 20 Business Days (which period may be extended by the Proposer with the consent of all relevant Consultees) following the issue of the Implementation Notice the relevant Notifiable Change, Material Change or the Non-Discretionary Change shall lapse and no longer be effective.
- 10.7 If before the Notifiable Change, Material Change or (where applicable) the Non-Discretionary Change is implemented the Proposer wishes to withdraw it may do so by notice to the relevant Consultees and to the ORR.

Condition C11 Notice to determine

- 11.1 If a Material Change Proposal made by RfL is accepted in accordance with this Part and, where relevant, approved by the ORR pursuant to Condition C8, RfL shall be entitled to serve notice to determine any Relevant Agreement between it and the Station Facility Owner at such time and in respect of such part or parts of the Station as shall be specified in the Material Change Proposal (if any). If no date is specified in the Material Change Proposal, the Relevant Agreement in question shall determine on the day which falls 150 days after the date of service of RfL's notice.
- 11.2 The date of expiration of any notice served by RfL pursuant to Condition C12.1 shall, if any conditions in the Material Change Proposal remain to be satisfied by RfL at the expiration date, be postponed to the date 15 Business Days after satisfaction of the last such condition unless the failure to satisfy is due to the default of the Station Facility Owner or its servants, agents or contractors.

Condition C12 Notices

- 12.1 Any notice to be served or information to be shared under this Part shall be in writing and

served by e-mail to such dedicated e-mail address as each of the relevant parties shall have notified in writing to the party serving the notice or in accordance with the notice provisions of the Relevant Agreement until such time (if any) as the Online Application Process is available after which time the Online Application Process shall be used instead.

Condition D3 Alternative arrangements

3.1 Where the Station Facility Owner restricts, suspends or alters permission to use the Station in accordance with Condition D1 or D2, it shall, to the extent reasonably practicable, make timeous and adequate provision, to a standard which is as near as is reasonably practicable to the standard at the Station provided for in the Relevant Agreement, for:

4.2 If RfL fails to carry out any work in accordance with this Condition D4, the Station Facility Owner may give RfL written notice of its intention to carry out such work unless, within a reasonable period after such notice (having regard to the nature and extent of the work involved), RfL carries out the work in question.

4.3 If, after expiry of any such reasonable period, RfL has failed to carry out such work to the reasonable satisfaction of the Station Facility Owner, the Station Facility Owner may carry out the work and RfL shall pay to the Station Facility Owner on demand the costs and expenses properly incurred in carrying out such work.

4.4 RfL shall not be in breach of its obligations under Condition D4.1 if:

4.4.1 the Station or the relevant part of it is subject to any Existing Agreement and, having taken all reasonable steps to fulfil its obligations under Condition D4.1, RfL has been unable to fulfil those obligations by virtue of the provisions of such Existing Agreement or any failure to obtain any consent (either unconditionally or on reasonable terms) from a relevant third party necessary before the relevant obligations may be discharged; or

4.4.2 the Station Facility Owner has not restricted, suspended or altered the permission to use the Station in accordance with RfL's reasonable request and, in consequence, RfL has been prevented from performing its obligations in Condition D4.1.

5.1.1 Maintenance and/or Repair (as the case may be) is carried out to those items of Equipment, and Maintenance is carried out to those Elements of the Station, listed as the Station Facility Owner's responsibility in the Equipment Inventory and the Elements Inventory;

5.1.2 Repair is carried out to the Elements of the Station listed as the Station Facility Owner's responsibility in the Elements Inventory, provided that the Station Facility Owner shall be under no obligation to Repair any such Elements of the Station damaged by the Insured Risks unless and to the extent that payment of any insurance monies is refused in whole or in part by reason of, or arising out of, any act, omission, neglect or default by or on the part of the Station Facility Owner or its employee, agent, licensee or invitee, but excluding any User;

5.1.3 Maintenance is carried out to each part of the Station not listed as the responsibility of RfL or the Station Facility Owner in the Elements Inventory;

5.1.4 renewal shall be undertaken to the items and Elements referred to in Conditions D5.1.1 and D5.1.2 where it is reasonably necessary and the most economic method of repair; and

5.1.5 any Element of the Station or item of Equipment specified in Annex 10 the Repair of which is the responsibility of the Station Facility Owner pursuant to this Condition D5.1 shall, insofar and to the extent that it is as at the Conditions Efficacy Date in a state of actual disrepair (or, as the case may be, not in working order), be brought into a proper state of repair (or, as the case may be, working order) as soon as reasonably practicable and otherwise in accordance with the terms of Annex 10.

5.2 The Station Facility Owner's obligations in Condition D5.1 shall extend to adequately painting and decorating (which shall include the application of preservative treatments where appropriate) the interior and exterior of any buildings forming part of the Station to the reasonable satisfaction of RfL's Surveyor.

5.3 The Station Facility Owner shall not be in breach of its obligations under Conditions D5.1 and D5.2 if the Station or the relevant part of it is subject to any Existing Agreement and, having taken all reasonable steps to fulfil its obligations under Conditions D5.1 and D5.2, the Station Facility Owner has been unable to fulfil those obligations by virtue of the provisions of such Existing Agreement or any failure to obtain any consent (either unconditionally or on reasonable terms) from a relevant third party necessary before the relevant obligations may be discharged.

Condition D8 Conduits free from obstruction

The Station Facility Owner shall keep all Conduits protected from frost (where necessary and where practicable at reasonable cost) and free from obstruction.

Condition D9 Outstanding disrepair

9.1 If the Station Facility Owner fails to carry out any work in accordance with Conditions D5 to D8, RfL may give the Station Facility Owner written notice of its intention to carry out such work unless, within a reasonable period after such notice (having regard to the nature and extent of the work involved), the Station Facility Owner carries out the work in question.

9.2 If, after expiry of any such reasonable period, the Station Facility Owner has failed to carry out such work to the reasonable satisfaction of RfL, RfL may enter the Station and carry out the work and the Station Facility Owner shall pay to RfL on demand the costs and expenses properly incurred in carrying out such work.

9.3 If the Station Facility Owner becomes aware of any defect or item of disrepair for which RfL may be or become liable under the Defective Premises Act 1972, the Station Facility Owner shall promptly give written notice to RfL of such defect or item of disrepair.

Condition D10 Exclusion of liability

No liability shall attach to RfL by reason of any consent given or made by or on behalf of RfL in respect of any alterations, additions or other works (including works of Repair or reinstatement) carried out by or on behalf of the Station Facility Owner, nor shall any such consent prejudice or derogate from the obligation of the Station Facility Owner to observe and perform the Station Facility Owner's obligations under these Station Access Conditions.

Condition D11 Operating manuals

RfL and the Station Facility Owner shall make any operating or maintenance manual or other material which would facilitate Maintenance and/or Repair available on loan to the other.

PART E **INSURANCE**

Condition E1 Responsibility of Relevant Operators for effecting insurance

1.1 The Station Facility Owner shall insure and keep insured the Station against property owner's liability, third party liability and such other risks in respect of which a reasonable and prudent station operator would effect and maintain insurance (other than the Insured Risks), provided that the terms of such insurance shall not unreasonably restrict any User's use of the Station.

1.2 The Station Facility Owner shall indemnify RfL, and keep it indemnified, from and against any costs not exceeding the Minimum Sum incurred in repairing, reinstating and making good the Station in respect of damage or destruction to or of the Station as a result of an Insured Risk provided that if any occurrence of an Insured Risk shall affect both the Station and any one or more stations or light maintenance depots leased by the Station Facility Owner from RfL (being referred to in this Part E collectively as "the Affected Facilities" and separately as "an Affected Facility") then the Station Facility Owner shall not be required to indemnify RfL for a sum exceeding the Minimum Sum in respect of the Affected Facilities as a whole.

1.3 Each User shall, if it is not a public service operator, effect and maintain appropriate insurance with a member of the Association of British Insurers or with Lloyds of London underwriters against third party liability and such other risks in respect of which a reasonable and prudent train operator would effect and maintain insurance.

1.4 Each User shall, in respect of any insurance policy to which Condition E1.3 applies, provide the Station Facility Owner or RfL with suitable evidence, promptly upon receipt of a request from that person for such evidence, that such insurance policy is in full force and effect, that all premiums have been paid up to date and that no circumstances exist which might lead to that policy being avoided.

Condition E2 Responsibility of RfL for effecting insurance

2.1 RfL shall subject to Condition E2.4:

2.1.1 insure and keep insured the Station (but not tenants' or trade fixtures and fittings) with a wholly owned subsidiary of Transport for London licenced by the Guernsey Financial Services Commission, a member of the Association of British Insurers or with Lloyds of London underwriters upon reasonable commercial terms against the Insured Risks; and

2.1.2 subject to Condition E2.2, effect such insurance for the Full Replacement Cost (less such excess as shall constitute the Minimum Sum) and such insurance shall be on terms that if any occurrence of an Insured Risk shall affect more than one Affected Facility such excess shall apply only once in respect of that occurrence to the Affected Facilities as a whole.

2.2 RfL shall, in respect of any insurance effected pursuant to Condition E2.1, use all reasonable endeavours to procure that:

2.2.1 the cost of such insurance is the best effective price reasonably obtainable; and

- 2.2.2 such insurance is effected so that in the event of Substantial Damage to the Station, it shall be replaced with a modern equivalent building of a size and specification to meet modern requirements (unless exact replacement of the Station is required by any public body pursuant to listed building or other legislation or by a Superior Estate Owner).
- 2.3 The Minimum Sum shall be a sum equal to the amount specified in paragraph 5 of Annex 9 or following 01 April 2018 such alternative amount as the Station Facility Owner shall specify (such specification taking place not more than once in each Financial Year) which shall be no less than the amount specified in paragraph 6 of Annex 9 and no more than the amount specified in paragraph 7 of Annex 9.
- 2.4 RfL shall be entitled from time to time to elect not to include terrorism as an Insured Risk by serving notice on the Station Facility Owner and Users to that effect and specifying a period of time during which such election shall apply (the 'Elected Period').

Condition E3 Destruction or damage to the Station

- 3.1 If the Station is destroyed or damaged then:
 - 3.1.1 all amounts payable by the Station Facility Owner to RfL pursuant to the indemnity in E1.2;
 - 3.1.2 all monies payable under insurance policies effected by RfL and/or during any Elected Period any amounts that would have been payable under such policies had terrorism been an Insured Risk in respect of destruction or damage to the Station; and
 - 3.1.3 all monies payable under insurance policies effected by the Station Facility Owner pursuant to Condition E1,

shall be applied (taking the amounts referred to in E3.1.1 first where applicable) by RfL and the Station Facility Owner as soon as reasonably practicable in the repair, reinstatement and making good of the Station, subject to:
 - 3.1.4 Condition E3.2; and
 - 3.1.5 RfL obtaining all necessary permissions and approvals which RfL shall use all reasonable endeavours to obtain as soon as reasonably practicable

Provided that if any occurrence of an Insured Risk shall affect the Station and one or more Affected Facilities then any monies paid pursuant to Condition E1.2 shall be required to be applied to the Station only in the same proportion as the amount of insured damage suffered at the Station from the occurrence of the Insured Risk bears to the total amount of insured damage so suffered at all Affected Facilities
- 3.2 As soon as practicable following the destruction of or damage referred to in Condition E3.1, RfL shall consult with the Relevant Operators and shall use all reasonable endeavours to agree:

- 3.2.1 the necessary reinstatement works, which in the case of Substantial Damage (and save where required by reason of the listed building or similar status of the Station or by a Superior Estate Owner) shall be the construction of a modern equivalent of the building(s) or Equipment damaged or destroyed provided that if the cost of such modern equivalent is more than the cost of rebuilding or reinstating the damaged or destroyed building(s) or Equipment the Relevant Operators shall by Requisite Majority have the option of requiring a modern equivalent building or reinstatement of the building which was damaged or destroyed; and
- 3.2.2 the programme for the carrying out of such reinstatement works, and, subject to this, RfL shall proceed as soon as reasonably practicable to effect such reinstatement works.
- 3.3 Neither RfL nor the Station Facility Owner shall be responsible for Repair and/or Maintenance of any part of the Station or Equipment which has been subject to destruction or damage pending its repair, reinstatement or making good.
- 3.4 If the monies recovered under any insurance policy maintained by RfL are not sufficient to meet the cost to RfL of fulfilling its obligations under Condition E3.2, RfL shall bear the shortfall.

Condition E4 Provision of documents

- 4.1 RfL or the Station Facility Owner, so far as it effects any insurance in respect of the Station, shall within 30 days of receipt of a request from RfL or any Relevant Operator provide such person with:
- 4.1.1 a copy of each insurance policy under, or in respect of which, RfL or the Relevant Operator has an interest and which relates to the Station or any risk of, or in any way associated with, the operation of the Station;
- 4.1.2 reasonable details of any amount payable by RfL or any Relevant Operator in respect of any such insurance policy; and
- 4.1.3 reasonable details of any claim which shall be made under any such insurance policy if the making of that claim affects or could reasonably be expected to affect RfL or any Relevant Operator.

Condition E5 Maintenance of insurance

- 5.1 In respect of each insurance policy to which Condition E4 applies, the person effecting such insurance shall procure that:
- 5.1.1 if and to the extent that RfL or any Relevant Operator has an insurable interest capable of being covered by such policy and to the extent that RfL or any Relevant Operator reasonably so requests, RfL or any Relevant Operator is named as a co-insured under such policy on such terms as shall be reasonable;
- 5.1.2 the policy is maintained and all claims are duly filed, and all proper steps to collect proceeds are duly taken in respect of such policy; and
- 5.1.3 if such insurance policy is not required under a station licence held by that person or that person does not hold a station licence, it shall bear an endorsement to the effect

that 30 days' notice shall be given to RfL or any Relevant Operator by the insurer or insurance broker of any lapse, or cancellation of, or material change to, the policy and that no such lapse, cancellation or change shall have effect unless such notice shall have been given.

Condition E6 Increase of premium or invalidation of policy

6.1 RfL or any Relevant Operator shall not, and shall procure that its Associates (other than passengers) do not, bring onto or do or omit to do at the Station anything which it is aware, or it ought reasonably to be aware, would:

6.1.1 invalidate any insurance of the Station or any Adjacent Property; or

6.1.2 increase the premium payable for that insurance; or

1.1 The Station Facility Owner shall, promptly after the Commencement Date in respect of the First Year and not later than 60 days prior to the commencement of each subsequent Accounting Year, notify each Passenger Operator of:

1.1.1 its best estimate of the Total Variable Charge for that Accounting Year; and

1.1.2 such Fixed Charges (if any) as the Station Facility Owner is willing to accept in lieu of all or any part of the Total Variable Charge for that Accounting Year.

1.2 The notice referred to in Condition F1.1 shall include a detailed breakdown of both the estimated Total Variable Charge and of the proposed Fixed Charges, together with comparative figures for the preceding Accounting Year (except in the case of a notice in relation to the First Year), in each case in sufficient detail to enable the Passenger Operator to make a proper assessment of the charges proposed, the method of their calculation and the costs of the amenities and services in question. Without prejudice to the generality of the foregoing, such breakdown shall:

1.2.1 in relation to the Total Variable Charge, include a detailed breakdown of the estimated Qualifying Expenditure; and

1.2.2 in relation to the Fixed Charges, identify which of the Common Station Amenities and the Common Station Services are being quoted for on a fixed basis, or taken into account, as part of the Fixed Charges; and

include details of the specifications and other assumptions applied in the calculation of the Total Variable Charge or any Fixed Charge.

1.3 The Station Facility Owner shall provide each Passenger Operator with such further information and/or clarification relating to the amounts notified to the Passenger Operator pursuant to Condition F1.2 as the Passenger Operator may from time to time reasonably request, promptly upon receipt of any such request.

Condition F2 Payment of charges

2.1 If the notice referred to in Condition F1.1 proposes any Fixed Charges, each Passenger Operator shall notify the Station Facility Owner within 45 days of receipt of such notice whether or not it elects to pay any or all of such Fixed Charges and, if so, which part or parts. To the extent that a Passenger Operator fails within such period to make any such election, the Passenger Operator shall be deemed to have elected to pay the Total Variable Charge.

2.2 If a Passenger Operator makes a timely election to pay any particular Fixed Charges, it shall not be liable to pay the relevant proportion of the Total Variable Charge for the Common Station Amenities and the Common Station Services to which such Fixed Charges apply (to the extent that they so apply). The Passenger Operator shall pay for all other Common Station Amenities and Common Station Services by way of the Residual Variable Charge.

2.3 Except as otherwise provided in the Station Access Agreement or in these Station Access Conditions, each User shall pay the Access Charge (which charge shall, insofar as it relates to the Residual Variable Charge, be in accordance with such bona fide and reasonable estimates thereof as the Station Facility Owner may, from time to time, notify to the Passenger Operator in

Such payment shall be made not later than the number of days specified in paragraph 8 of Annex 9 after the end of the four-week period in question or after the date of receipt of an invoice for such payment whichever is the later.

Condition F3 Certificate of Residual Variable Charge

3.1 The Station Facility Owner shall, as soon as practicable, and in any event within 60 days, after the end of each Accounting Year and each Accounting Half-Year:

3.1.2 provide to each Passenger Operator a certificate of the Residual Variable Charge so calculated.

3.2 The Certificate shall contain information in relation to each element of the Residual Variable Charge in an amount of detail which is at least equal to that required by Condition F1.2.

4.1 If, in relation to any Accounting Year or Accounting Half-Year, the amount paid by a Passenger Operator pursuant to Condition F2.3 in respect of the Residual Variable Charge shall have been greater than the amount of the Residual Variable Charge for that Accounting Year or Accounting Half-Year which is certified pursuant to Condition F3.1, the Station Facility Owner shall repay to the Passenger Operator an amount equal to:

4.1.1 the difference between the amount so paid and the Residual Variable Charge so certified; and

4.1.2 interest on the amount referred to in paragraph F4.1.1 above at the Default Interest Rate, calculated pursuant to Condition F6.

5.2 interest on the amount referred to in paragraph F5.1 above at the Default Interest Rate, calculated pursuant to Condition F6.

Condition F6 Calculation of interest

Interest payable pursuant to Conditions F4 and F5 shall be simple interest and shall be calculated as if the amount on which the interest is payable were a debt incurred in equal four-weekly instalments during the Accounting Year or Accounting Half-Year in question. The interest shall be

payable on each instalment from the date upon which it shall be treated as having been incurred until the actual date of payment.

Condition F7 Inspection of books, records and accounts

Each User or bona fide prospective User shall be entitled to inspect (or procure that its agents or representatives inspect) the books, records and accounts kept by the Station Facility Owner in respect of the Station (including any financial and operational records or data), insofar as they relate to the Common Station Amenities or the Station Services, at any reasonable time upon reasonable notice to the Station Facility Owner.

Condition F8 Adjustments following inspection

8.1 If, upon or following any inspection in accordance with Condition F7 by a Passenger Operator, the amount of the Residual Variable Charge in respect of any Accounting Year or Accounting Half-Year commencing not earlier than 18 months prior to the date on which the inspection is completed is established to have been less than the amount shown in the relevant Certificate, the Station Facility Owner shall, within 5 Business Days of being notified of such discrepancy, repay to the relevant Passenger Operator or Passenger Operators a sum equal to such shortfall, together with interest thereon at the Default Interest Rate from the date which is half way through the Accounting Year or the Accounting Half-Year in question until the date of actual repayment of that sum by the Station Facility Owner.

8.2 If, upon or following any such inspection, the amount of the Residual Variable Charge in respect of any Accounting Year or Accounting Half-Year commencing not earlier than 18 months prior to the date on which the inspection is completed is established to have been greater than the amount shown in the relevant Certificate:

8.2.1 the relevant Passenger Operator shall, within 5 Business Days of being notified of such discrepancy, pay to the Station Facility Owner a sum equal to such excess but without interest; and

8.2.2 the Station Facility Owner shall pay the relevant Passenger Operator an amount equal to the Passenger Operator's reasonable costs and expenses (if any) incurred in carrying out or procuring the relevant inspection.

8.3 If the shortfall referred to in Condition F8.1 represents:

8.3.1 more than 5% of the Residual Variable Charge, the Station Facility Owner shall pay the relevant Passenger Operator or Passenger Operators an amount equal to its reasonable costs and expenses incurred in carrying out or procuring the relevant inspection;

8.3.2 less than 5% of the Residual Variable Charge, each relevant Passenger Operator or Passenger Operators shall pay the Station Facility Owner an amount equal to the Station Facility Owner's reasonable costs and expenses (if any) incurred in carrying out or procuring the relevant inspection.

Condition F9 Accounts

9.1 Without prejudice to any obligation of the Station Facility Owner under its station licence, the Station Facility Owner shall:

9.1.1 keep accounts in respect of the Station which relate solely to the operation of the Station;

9.1.2 maintain such Station accounts in such a way as to enable all material revenue and expenditure to be clearly distinguished and analysed by category or, if appropriate, item in respect of:

- (a) the Common Station Services and the Common Station Amenities; and
- (b) the Exclusive Station Services,

and to identify any contribution by any person towards the cost or expense of the foregoing.

9.2 Without prejudice to any obligation of the Station Facility Owner under its station licence, the accounts to be kept and maintained by the Station Facility Owner in accordance with Condition F9.1 shall at all times:

9.2.1 be kept up to date and to a standard which is at least sufficient to enable each Passenger Operator properly to assess the costs of the amenities and services in respect of which the Residual Variable Charge is made; and

9.2.2 include financial accounts and information in respect of each Accounting Year and Accounting Half-Year on a station by station basis, broken down as specified in Condition F9.1 above.

9.3 The Station Facility Owner shall, within 14 days of the end of each Accounting Period, provide to each Passenger Operator a comparison between the estimate of the Total Variable Charge notified pursuant to Condition F1.1 and the Station Facility Owner's then best estimate of the Total Variable Charge for that Accounting Year.

9.4 Any comparison provided pursuant to Condition F9.3 shall, unless the Requisite Majority otherwise consent:

9.4.1 explain and identify any exceptional items and any variance of more than plus or minus 3 per cent. between:

- (a) the estimates of the Total Variable Charge referred to in Condition F9.3; and
- (b) any revenue or expenditure taken into account in those estimates in respect of any category or item of Common Station Services or Common Station Amenities by reference to which the Station accounts are maintained pursuant to Condition F9.1.2;

9.4.2 identify any such category or item of expenditure (and any contribution of any person towards any such expenditure) which was estimated pursuant to Condition F1.1 and which has been actually incurred; and

9.4.3 compare any such expenditure and contributions with that estimate.

9.5 RfL shall:

9.5.1 keep financial records in respect of the Station which relate solely to costs that RfL is entitled to recoup from the Station Facility Owner under these Station Access Conditions; and

9.5.2 promptly upon request by the Station Facility Owner, provide the Station Facility Owner with a certificate of such costs and their calculation.

9.6 The financial records to be kept and maintained by RfL in accordance with Condition F9.5 shall at all times be kept up to date and to a standard which is at least sufficient to enable the Station Facility Owner properly to analyse and assess all material elements of the costs to be recouped by category or, if appropriate, item.

9.7 Each Relevant Operator and each bona fide prospective User shall be entitled to inspect (or procure that its agents or representatives inspect) the financial records referred to in Condition F9.5 at any reasonable time upon reasonable notice to RfL.

9.8 If, upon or following any inspection in accordance with Condition F9.7, the amount of the costs actually recouped by RfL in respect of any Accounting Year or Accounting Half- Year commencing not earlier than 18 months prior to the date on which the inspection is completed is established to have been greater than the amount shown in the relevant RfL Certificate, RfL shall, within 5 Business Days of being notified of such discrepancy, repay to the Station Facility Owner a sum equal to such excess, together with interest at the Default Interest Rate from the date which is half way through the Accounting Year or the Accounting Half-Year in question until the date of actual repayment of that sum by RfL.

9.9 If the excess referred to in Condition F9.8 represents:

9.9.1 more than 5% of the costs actually recouped by RfL, RfL shall pay the Relevant Operator an amount equal to its reasonable costs and expenses incurred in carrying out or procuring the relevant inspection;

9.9.2 less than 5% of the costs actually recouped by RfL, the Relevant Operator shall pay RfL an amount equal to its reasonable costs and expenses (if any) incurred in carrying out or procuring the relevant inspection.

9.10 If, upon or following any inspection referred to in Condition F9.7, the amount of the costs actually recouped by RfL in respect of any Accounting Year or Accounting Half-Year commencing not earlier than 18 months prior to the date on which the inspection is completed is established to have been less than the amount shown in the relevant RfL Certificate:

9.10.1 the Station Facility Owner shall, within seven days of being notified of such discrepancy, pay to RfL a sum equal to such shortfall but without interest; and

9.10.2 RfL shall pay the Relevant Operator an amount equal to that operator's reasonable costs and expenses (if any) incurred in carrying out or procuring the relevant inspection.

9.11 References in this Condition F9 to any cost which RfL may recoup or be entitled to recoup shall not include any part of the Long Term Charge.

Condition F10 Calculation of number of Vehicles operated

10.1 The Station Facility Owner shall:

10.1.1 as soon as reasonably practicable after a Station Access Agreement with a Passenger Operator comes fully into effect and otherwise at regular intervals of not more than 12 months; and

10.1.2 after each material change of the kind referred to in Condition F10.3,

use all reasonable endeavours to ascertain the number of Vehicles operated by or on behalf of the Station Facility Owner and each Passenger Operator which depart from the Station during a period which is of the same duration and comprising the same days of the week (including public holidays, where applicable) as the Sample Period, provided that the Station Facility Owner shall not, in ascertaining such number of Vehicles, be obliged to recalculate a number calculated within the previous 12 months in respect of the Station Facility Owner or any Passenger Operator, unless:

10.1.3 the Station Facility Owner has grounds for a reasonable belief that a recalculation in accordance with this Condition F10.1 would give rise to a materially different number in any case; or

10.1.4 any Passenger Operator shall request that such number be so recalculated.

10.2 The Station Facility Owner shall procure that the results of any calculation made pursuant to Condition F10.1 shall be made available to all Passenger Operators not later than 7 days after the calculation shall have been made.

10.3 For the purposes of Condition F10.1.2, a material change shall be deemed to have occurred if any event or circumstance (including entry by the Station Facility Owner into a new access agreement permitting a passenger service operator to use the Station, or amendment or termination of any existing access agreement permitting such use) shall have occurred which materially affects or is likely materially to affect the number of Vehicles operated by or on behalf of the Station Facility Owner or any Passenger Operator which stop at the Station.

10.4 Upon entry into a Station Access Agreement with a passenger service operator and pending the first calculation thereafter by the Station Facility Owner pursuant to Condition F10.1, the Station Facility Owner shall, for the purposes of calculating the Total Variable Charge applicable in respect of such passenger service operator, use such estimate of the number of Vehicles in question as may have been provided to the Station Facility Owner by the relevant passenger service operator for the purposes of this Condition F10. If no such estimate shall have been so provided, the Station Facility Owner shall use its own estimate for such purpose.

10.5 For the purposes only of paragraph (c) of the definition of "Common Charges", the Passenger Operator's Proportion shall be equal, as at the Commencement Date, to the percentage specified for this purpose in the Station Access Agreement, and shall thereafter be recalculated in accordance with Condition F10 only when:

10.5.1 there is a change in the number or identity of Passenger Operators; or

10.5.2 it shall be likely that such a recalculation would alter the Passenger Operator's Proportion of any Relevant Operator by an amount which is greater than the percentage specified in paragraph 9 of Annex 9 of its Passenger Operator's Proportion immediately prior to the recalculation in question.

10.6 If a Station Access Agreement is terminated by mutual agreement, the Station Facility Owner shall indemnify each Passenger Operator and keep each of them indemnified against the Excess Proportion.

In this Condition F10.6, the “Excess Proportion”, in relation to each Passenger Operator, shall be calculated as follows:

$$EP = \frac{(LTC_{\text{actual}} - LTC_{\text{notional}}) + (RVC_{\text{actual}} - RVC_{\text{notional}})}{LTC_{\text{actual}} - LTC_{\text{notional}} + RVC_{\text{actual}} - RVC_{\text{notional}}}$$

where:

EP is the Excess Proportion of the affected operator;

LTC actual is the amount of the Passenger Operator's Proportion of the Long Term Charge which is payable by the affected operator for the relevant period following the relevant termination;

LTC notional is the amount of the Passenger Operator's Proportion of the Long Term Charge which, on the assumed basis, would have been payable by the affected operator for the relevant period if the relevant termination had not taken place;

RVC actual is the amount of the Residual Variable Charge which is payable by the affected operator for the applicable period following the relevant termination;

RVC notional is the amount of the Residual Variable Charge which, on the assumed basis, would have been payable by the affected operator for the applicable period if the relevant termination had not taken place;

“affected operator” means the Passenger Operator in question;

“applicable period” means the period beginning on the date of the relevant termination and ending on the earlier of:

- (a) the last day of the Accounting Year in which the relevant termination occurred; and
- (b) the next following date in respect of which the Station Facility Owner shall carry out a calculation pursuant to Condition F10.1;

“assumed basis” means the assumption that:

- (a) the relevant termination did not occur; and
- (b) the Passenger Operator's Departures of the outgoing operator in the relevant period or the applicable period (as the case may be) were the same as they were immediately prior to the relevant termination;

“outgoing operator” means the Passenger Operator whose Station Access Agreement has been the subject of a relevant termination;

“relevant period” means the period beginning on the date of the relevant termination and ending on the date upon which the Station Access Agreement in question was expressed to expire by reason of the passage of time; and

result in a Relevant Restriction, except such as may arise pursuant to:

6.4 Any grant of rights of way made pursuant to Condition G6.1 shall require the grantee to comply with the Station Facility Owner's reasonable requirements in relation to safety or security and to give due consideration to its and any User's representations regarding the effect of the exercise of the rights in question on its and the User's operations. Any grant of a right of entry to carry out works made pursuant to Condition G6.1 shall, so far as reasonably practicable, incorporate provisions controlling entry upon the Station no less beneficial to the Station Facility Owner than the provisions of Conditions D2.3.2 and N4.

Condition M3 Remedial action required due to pre-existing Environmental Condition

3.1 Where the Station Facility Owner becomes aware that an Environmental Condition exists at the Station and the Station Facility Owner reasonably considers as an experienced operator of stations:

3.1.2 that immediate action is necessary in order to mitigate the extent of such liability,

the Station Facility Owner shall take such action (without the need to comply with the provisions of Part C) and shall inform RfL of that action as soon as reasonably practicable. Where the Station Facility Owner takes such action, any liability of RfL pursuant to the RfL Environmental Indemnity shall include the Station Facility Owner's reasonable costs in so doing.

3.2 Subject to Condition M3.1, where the Station Facility Owner becomes aware of an Environmental Condition which could give rise to RfL liability under the RfL Environmental Indemnity and reasonably considers it necessary or appropriate to take any action to remedy or mitigate that condition, it shall give RfL 21 days' notice of the action which it proposes to take including:

3.3 Where RfL receives notification from the Station Facility Owner pursuant to Condition M3.2, RfL shall either consent to the action proposed (such consent not to be unreasonably withheld or delayed) or elect to prevent, remedy or mitigate the condition pursuant to Condition M4.1. RfL shall notify any such election to the Station Facility Owner within 21 days of the notification.

3.4 Subject to Condition M3.1, the Station Facility Owner shall not commence any action or enter into binding arrangements to do so unless RfL gives its consent pursuant to Condition M3.3.

3.5 Within 21 days of receiving notification of any act or potential claim, judgment, order, notice, direction or injunction which could give rise to RfL liability under the RfL Environmental Indemnity, the Relevant Operator shall provide RfL with written details thereof. Such details shall include copies of all relevant data, reports, advice, opinions, statements, correspondence and any other relevant document.

3.6 Where RfL receives notification from a Relevant Operator pursuant to Condition M3.5, RfL shall have a right to:

3.6.1 defend, contest, comply with or settle any claim, judgment, order, notice, direction or injunction; and/or

3.6.2 take any action or carry out any works to prevent, mitigate or remedy the condition of the Station pursuant to Condition M4 which could give rise to an obligation of RfL to indemnify the Relevant Operator under the RfL Environmental Indemnity.

Condition M4 RfL remedial action

4.1 If:

4.1.1 in RfL's reasonable opinion, urgent action is necessary in order to prevent, mitigate or remedy an Environmental Condition or to comply with a Direction of a Competent Authority; or

4.1.2 if it is in the circumstances not reasonably practicable for the Station Facility Owner to do so,

RfL may take (without the need to comply with Part C) reasonable steps to prevent, mitigate or remedy that Environmental Condition or to comply with that Direction. RfL shall inform the Station Facility Owner as soon as is reasonably practicable of any steps which it proposes to take pursuant to this Condition M4.1.

4.2 Subject to Condition M4.1, RfL may, if action is in its reasonable opinion necessary in order to prevent, mitigate or remedy an Environmental Condition at the Station for which a Relevant Operator is not responsible, take such action upon at least 6 months' notice to the Station Facility Owner.

4.3 Where any action is taken pursuant to Conditions M3.1, M3.3, M4.1 or M4.2 to prevent, remedy or mitigate an Environmental Condition which is not the result of the activities of any Relevant Operator or its Associates or to the condition of the Station prior to the Environmental Liability Commencement Date, the cost of such action shall be borne between RfL and the Relevant Operators on a fair and equitable basis.

Condition M5 Environmental indemnities

5.1 The Station Facility Owner and each User shall indemnify RfL and keep it indemnified from and against all reasonable and proper expenses, costs and liabilities reasonably and properly incurred by RfL as a result of any Environmental Condition at the Station or the Adjacent Property which exists as a result of activities by that person or its employees, agents, contractors, subtenants or licensees since the Environmental Liability Commencement Date, or the proper undertaking by RfL in accordance with this Part M of any steps to prevent, mitigate or remedy such an Environmental Condition.

5.3 If any payment is made by:

5.3.1 RfL to a Relevant Operator under Conditions M4.3 or M5.2; or

5.3.2 a Relevant Operator to RfL under Condition M5.1,

and the payee subsequently recovers or procures the recovery from a third party of any amount by way of damages or compensation in respect of any liabilities of the kind referred to in that Condition, the payee shall repay to the payer an amount equal to the lesser of:

5.3.3 the amount recovered from the third party; and

5.3.4 the amount paid by the payer pursuant to that Condition.

Condition M6 Conduct of claims

6.1 Whether or not RfL elects to act under Condition M3.6, the Relevant Operator shall on a timely basis keep RfL informed of the conduct and progress of all claims of the kind referred to in Condition M3.5. The Relevant Operator shall provide promptly to RfL copies of all relevant data, reports, records, pleadings, statements, correspondence, advice and opinions concerning any claim, judgment, order, notice, direction or injunction or the circumstances, events, conditions or activities which could give rise to any liability of RfL to indemnify the Relevant Operator under the RfL Environmental Indemnity.

6.2 The Relevant Operator shall not settle any claim of the kind referred to in Condition M3.5 without RfL's written consent (such consent not to be unreasonably withheld or delayed).

6.3 Where any Environmental Damage arising at the Station since the Environmental Liability Commencement Date results in any Competent Authority or other person taking proceedings under Environmental Law against RfL, each Relevant Operator shall have the right to be joined as a party (at its own cost) to any proceedings where permissible as a matter of law.

Condition M7 Confidentiality

Where a person who is to provide information or documents under this Part M to another person is under a duty of confidentiality in relation to that information or documents, he shall use all reasonable endeavours to obtain permission to disclose such information or documents and unless and until any such permission is obtained he shall not be required to provide such information or documents under this Part M.
