

PR18 reviews of Schedules 4 and 8 of track access contracts

Thank you for inviting our input in preparation for reviews of the performance and possessions regimes.

AGA engaged with RDG in its cross-industry workshops and also the preparation of its formal response to your letter of 13 November 2015 and fully supports RDG's position, particularly in respect of clarifying the purpose of the regimes before considering more detailed aspects and also reviewing the regimes alongside and in context with the structure of charges as a whole.

Kind regards,

Catherine Rowe

Track Access Manager
