

PfC60

Condition D4.6 of Part D of the Network Code shall be deleted and replaced with the following:

“4.6 The Decision Criteria

4.6.1 Where Network Rail is required to decide any matter in this Part D its objective shall be to share capacity on the Network for the safe carriage of passengers and goods in the most efficient and economical manner in the overall interest of current and prospective users and providers of railway services (“the Objective”).

4.6.2 In achieving the Objective, Network Rail shall apply any or all of the considerations in paragraphs (a)-(k) below (“the Considerations”) in accordance with Condition D4.6.3 below:

- (a) maintaining, developing and improving the capability of the Network;
- (b) that the spread of services reflects demand;
- (c) maintaining and improving train service performance;
- (d) that journey times are as short as reasonably possible;
- (e) maintaining and improving an integrated system of transport for passengers and goods;
- (f) the commercial interests of Network Rail (apart from the terms of any maintenance contract entered into or proposed by Network Rail) or any Timetable Participant of which Network Rail is aware;
- (g) seeking consistency with any relevant Route Utilisation Strategy;
- (h) that, as far as possible, International Paths included in the New Working Timetable at D-48 are not subsequently changed;
- (i) mitigating the effect on the environment;
- (j) enabling operators of trains to utilise their assets efficiently; and
- (k) avoiding changes, as far as possible, to a Strategic Train Slot other than changes which are consistent with the intended purpose of the Strategic Path to which the Strategic Train Slot relates.

4.6.3 When applying the Considerations, Network Rail must consider which of them is or are relevant to the particular circumstances and apply those it has identified as relevant so as to reach a decision which is fair

and is not unduly discriminatory as between any individual affected Timetable Participants or as between any individual affected Timetable Participants and Network Rail. Where, in light of the particular circumstances, Network Rail considers that application of two or more of the relevant Considerations will lead to a conflicting result then it must decide which of them is or are the most important in the circumstances and when applying it or them, do so with appropriate weight.

4.6.4 The Objective and the Considerations together form the Decision Criteria.”
