22 February 2023

Dear Paul,

Heathrow Airport Limited (HAL) Network Statement, 2025

I am writing to conclude ORR's review of HAL's latest Network Statement, as required of us under *The Railways (Access, Management and Licensing of Railway Undertakings) Regulations 2016* ("the 2016 Regulations").

We commented on your provisional version, on which you consulted between November 2023 and January 2024, and have reviewed your *Network Statement 2025*, published in February 2024. As with last year, your early engagement prior to your consultation on the statement was very helpful.

We note in particular your prompt responses to our comments and the changes made reflecting the commitments you made as part of our discussions on your 2025 Network Statement, including the revision of a number of links to make the document more user-friendly. You have made the changes we suggested and in view of that that we have no further comment on this edition.

We look forward to engagement on your 2026 Network Statement later this year. In line with our commitment to transparency, we will publish this letter on our website.

Yours sincerely

David Reed
