

APPLICATION TO THE OFFICE OF RAIL AND ROAD FOR A PASSENGER TRACK ACCESS AGREEMENT, OR AMENDMENT TO A PASSENGER TRACK ACCESS AGREEMENT UNDER SECTIONS 17-22A OF THE RAILWAYS ACT 1993

1. Introduction

Please use this form to apply to the Office of Rail and Road (ORR) for:

- directions under section 17 of the Railways Act 1993 for a new track access contract. Section 17 allows companies who want the right to use a railway facility (including Network Rail's network) to apply to ORR for access if they are not able (for whatever reason) to reach agreement with the facility owner.
- approval under section 18 of the Railways Act 1993 for a new track access contract. Section 18 allows companies to apply for approval if they have agreed terms with the facility owner.
- approval of a proposed amendment (agreed by both parties) under section 22 of the Railways Act 1993 to an existing track access contract.
- directions under section 22A of the Railways Act 1993 for an amendment to an existing track access contract. Section 22A allows anyone seeking an amendment to an existing track access contract which allows the operation of more extensive services to apply for a compulsory amendment if they are not able (for whatever reason) to reach agreement with the facility owner.

If it is the facility owner, Network Rail will carry out a pre-application consultation. In this case fill in this form up to section 7.3. You should fill in the rest of the form after the consultation and before applying to ORR. If you are unhappy with the facility owner carrying out the consultation, you should ask ORR to do so. If this is the case, you should complete this form in full before submitting it to us.

The form sets out ORR's standard information requirements for considering applications. It cross-refers throughout to our [criteria and procedures](#) (C&Ps). The C&Ps explain the process, timings and the issues we will expect to consider. You should use the published [model passenger track access contract](#) as your starting point when drafting the contract or amendments you want. Please read the C&Ps and the Code of Practice before applying.

We are happy to talk to you before you apply. Please contact us [here](#).

You can download a copy of this form, and of ORR's model track access contract, from the ORR website: www.orr.gov.uk

End date:

The 36th Supplemental Agreement (SA) is entered into pursuant to the Passenger Access (Short Term Timetable and Miscellaneous Changes) General Approval 2009 and seeks to:

- Amend Table 5.1 of Schedule 5 to remove the pacers unit types (14x) from the list of specified equipment as these are no longer operated by Northern Trains Limited (NTL)
- Amend Appendix 7c containing the Default Consist Data to remove the pacer unit types (14X) from the tables as these are no longer operated by NTL. These will be replaced with newly specified default consist types to reflect NTL's current operation.

3.2 Terms not agreed with the facility owner (for applications under sections 17 or 22A only): please set out here any areas of the application which have not been agreed, the reasons for the failure to agree and the reasons for seeking these provisions. **C&Ps para 3.102**

N/A

3.3 Departures from ORR's model passenger track access contract: please set out and explain here any:

- areas where the drafting of the application changes ORR's published template passenger track access contract (as appropriate, cross-referencing to the answers below). Please also explain why these departures have been made. **C&Ps paras 2.34-2.37**
- instances where the proposal departs from the charging and/or performance regimes established by ORR's latest periodic review (or subsequent interim reviews) as reflected in ORR's model passenger track access contract, including the financial implications (e.g. establishment of an access charge supplement or rebate). **C&Ps paras 5.1-5.44**
- new processes (e.g. a self-modification provision) which have been added. Please also demonstrate fully how this new process is robust and complete. **C&Ps paras 6.2-6.3**

This application is in line with the ORR's model passenger track access contract. We are seeking to amend the Default Consist Data to remove Pacer trains from the TAC and to reflect NTL's current operation.

4. The expression of access rights and the use of capacity

4.1 Benefits: please set out what specific benefits the proposal will achieve, including a justification for requiring the rights and their characteristics. NTL began phasing out the Pacer type train of the 14x classes in 2020, with the final unit diagram of a Pacer taking place in November 2020. This withdrawal has been prompted by the delivery of 100 new trains, helping NTL deliver more modern services and creating a more reliable operation across the north.

NTL have engaged with Network Rail through various correspondence and meetings discussing NTL's requirement to remove rolling stock types that are no longer in operation and to ensure correct track access charges are applied for all services across the NTL network.
