- 9.2 The Train Operator shall take all precautions as are reasonably practicable in relation to the Steam Driven Equipment itself and shall take all necessary precautions in the operation of that equipment (including the adoption of recommendations made to it by appropriate safety bodies, including but not limited to the Health and Safety Executive and the Rail Accident Investigation Branch) to prevent:-
- a) any risk of fire occurring as a result of the operation of such equipment; and
 - b) any risk of injury or death to any person or damage to property caused by fire resulting from the operation of such equipment.
- 9.3 The Train Operator shall only be entitled to request to operate Services which are to be operated by Steam Driven Equipment if the Steam Driven Equipment is:-
- (a) an oil fired locomotive; or
 - (b) a steam locomotive fitted with spark arrestor equipment in working order, in both the chimney and the ashpan, that conforms with all applicable Railway Group Standard requirements; or

- 9.4.1. Irrespective of any procedures to which the Train Operator has in place for the prevention of fire in operating the Steam Driven Equipment, if it appears to Network Rail that there may be a serious risk of fire if a Train Slot or Train Slots is/are operated by Steam Driven Equipment, it shall use its reasonable endeavours to give the Train Operator not less than seven days' notice to that effect, provided that Network Rail shall have no liability, in part or in whole, howsoever arising, to the Train Operator as a result of its failure to do so.
- 9.4.2 The Train Operator shall have the right to make representations to Network Rail on receipt of any notice given pursuant to paragraph 9.4.1 and Network Rail shall make due consideration of such representation (including any representation made in respect of the nature and purpose of reports received from private dwelling owners); such representations shall be made by the Train Operator no later than two Working Days following receipt. While Network Rail shall make due consideration of any such representation made, it shall in no way be bound by any such representation and Network Rail shall suffer no liability to the Train Operator as a result of any action or lack of action or otherwise on its part in response to such representations.
- 9.5 Subject to paragraph 9.3 above and notwithstanding paragraph 9.4, on or at any time before 12 noon on the third Working Day prior to the day on which a Train Slot or the first of a series of Train Slots is Planned (as that term is defined in Schedule 8) to be operated by Steam Driven Equipment (each an "Affected Train Slot"), Network Rail may give notice ("Withdrawal Notice") to the Train Operator that, in view of one or

more weather forecasts received by Network Rail from the Meteorological Office or any other like body or is in the knowledge of Network Rail or one or more reports concerning fire risks received by Network Rail from the Meteorological Office or other like body or one or more reports concerning fire risks received by Network Rail from any occupier of land adjacent to the routes over which the Affected Train Slot or Slots is/are Planned to operate:-
