Subject: RE: Freightliner Ltd. v. Network Rail Infrastructure Ltd. - alleged failure to comply with TTP2591

[REDACTED]

Firstly, Network Rail wishes to note our continued dialogue with Freightliner on 4L73 (i.e. the subject of TTP2591), ever since the Determination was made. We would not wish for you or the Hearing Chair to think that this matter hasn't received due care and attention – the matter of 4L73 has been discussed at length.

I can confirm that Network Rail welcomes further guidance from the Hearing Chair under Network Code Condition D5.3.2 – we would like to request clarification. Network Rail agrees to waive the time limits in D5.3.3.

Please could [REDACTED] be included in all future correspondence.

Kind Regards
