18 July 2019

Patrick Green  
Network Experience Manager  
Transport for London  
[By email]

Dear Patrick,

**Approval of London Underground Limited (trading as London Underground) Disabled People's Protection Policy (Condition 5 of the GB Passenger Statement of National Regulatory Provisions).**

Thank you for submitting London Underground's Disabled People's Protection Policy (DPPP) for approval. A copy of the approved DPPP is attached to this letter, and will be published on our website along with a copy of this letter.

London Underground is required to have a DPPP at certain stations where underground trains run on the Network Rail network, and where it operates stations used by national passenger train operators.

We have reviewed London Underground's DPPP against the 2009 Guidance "How to write your Disabled People's Protection Policy: A guide for Train and Station Operators" (the guidance). We also sought views on the draft from London TravelWatch and the Disabled Persons Transport Advisory Committee. I can confirm that London Underground's DPPP meets the requirements of Condition 5 of its GB Passenger Statement of National Regulatory Provisions, with the exceptions outlined overleaf.

We have taken the decision to approve the DPPP even though it does not meet in full all of the requirements of the guidance. We have done so for the benefit of passengers, in order that they understand what assistance is available and can readily access your current published DPPP documents.

Approval has also been given on the understanding that, following publication of our revised guidance, London Underground's DPPP must be fully compliant with the full range of requirements by the end of the year including the following.

- **Commitment to participate in the provision of booked assistance via Passenger Assist.**
- **Commitment to participate in the provision of help with luggage for passengers that have booked assistance via Passenger Assist.**

Both of these services are currently not available at London Underground stations, and will require a change in working practices. For this reason, an internal consultation (including with union representatives) and approvals process is essential, and is currently in the process of being carried out. However, by early 2020 we understand staff will be in a position to use the Passenger Assist System and carry out luggage assistance.

You have confirmed you will continue to carry out assistance on a Turn Up and Go basis for the time being, and that your revised policy will include full participation in the Passenger Assist system.

In approving the DPPP, we welcome the following, which we believe are likely to be positive for passengers:

- The number of forums and stakeholder engagement which take place throughout the year and form a key part of the decision making process for Transport for London (TfL). These include TfL's Independent Disability Advisory Group and the Valuing People forum, and a number of sub-regional mobility forums established to enhance discussion between TfL, the London Boroughs and groups for older and disabled people.
- The extensive disability awareness training which is delivered to all operational staff and operational managers, and the introduction of disability equality training for senior managers. Delivery is a combination of classroom based, online modules and on the job training, and is covered by regular refreshers in order to maintain staff knowledge.

As you may be aware, we are currently finalising revisions to the guidance published for train and station operators on how to write their DPPP. We will work with all operators once the new guidance is published in order to ensure their DPPP is revised accordingly, in order to comply with the updated guidance requirements.

We will confirm the deadline for submission of your revised policy at the time of publication of the updated guidance.

Yours sincerely,

A handwritten signature in black ink, enclosed in a thin black rectangular box. The signature is cursive and appears to read "M. Clements".

**Marcus Clements**

# 1. Introduction

This document sets out the policies and practices that London Underground operates in relation to older and disabled customers using the National Rail services at the following stations, which we operate on behalf of the train operating companies (TOCs):

Station	Train Operating Company
Amersham	Chiltern
Blackhorse Road	London Overground
Chalfont & Latimer	Chiltern
Chorleywood	Chiltern
Farringdon	Govia Thameslink Railway
Greenford	First Great Western
Gunnelsbury	London Overground
Harlesden	London Overground
Harrow & Wealdstone	London Overground, London <b>North Western</b> & GTR Southern
Harrow on the Hill	Chiltern
Highbury & Islington	London Overground and Great Northern
Kensal Green	London Overground
Kenton	London Overground
Kentish Town	Govia Thameslink Railway
Kew Gardens	London Overground
Moorgate	Great Northern
North Wembley	London Overground
Old Street	Great Northern
Queen's Park	London Overground
Rickmansworth	Chiltern
Seven Sisters	London Overground
South Kenton	London Overground
South Ruislip	Chiltern
Stonebridge Park	London Overground
Stratford	TfL Rail, Abellio Greater Anglia & London Overground
Walthamstow Central	London Overground
Wembley Central	London Overground, London Midland & GTR Southern
West Brompton	London Overground & GTR Southern
West Ham	c2c Rail
West Ruislip	Chiltern

This document relates only to the TOCs and stations listed above.

For information about the policies and practices we have in place relating to customers using London Underground (LU) services, please see [www.tfl.gov.uk/transport-accessibility](http://www.tfl.gov.uk/transport-accessibility) .

## Operator strategy

London Underground takes its obligations to improve accessibility seriously. We recognise that our customers may have different requirements when they travel with us and we are committed to making their journey as easy as possible. We have made considerable improvements over the past couple of decades to decrease and remove the communicational and attitudinal barriers that disabled customers face, and to improve physical access to the system.

These improvements have included (see below for more information):

- Better staff training
- More accessible stations and trains
- More extensive and meaningful engagement with disabled customers

Transport for London publishes a number of documents which summarise the action being taken to deliver high quality, accessible transport on the TfL network, including our Single Equality Scheme and our Action on Equality publication. These can be accessed at:

<https://tfl.gov.uk/corporate/publications-and-reports/equality-and-inclusion-publications>

In addition, the TfL Business Plan sets out all expenditure and priorities over the life of the plan. This can be viewed at:

<https://tfl.gov.uk/corporate/publications-and-reports/business-plan>

**This Business Plan sets out TfL's plans for the five years from 2019/20 to 2023/24.**

London Underground recognises the 'social model of disability', which says that:

- Disability is a social phenomenon
- It is created by society's response to a person's impairments or learning difficulties
- Discrimination against disabled people is just as oppressive as discrimination on the grounds of age, gender reassignment, race, religion or belief, sex and sexual orientation

Our aim is to make it easier for all of our customers to access and use the network. Our document "Making rail accessible: helping older and

disabled passengers” contains further information on how we plan to do this.

## 2. Management arrangements and responsibility

London Underground is committed to making our customers journeys as simple as possible and our Accessible Travel Policy (ATP) contains information on how we plan to do this.

The Chief Customer Officer London Underground is responsible for our ATP which is comprised of this policy document and a separate customer information leaflet.

These are titled as follows:

- Making rail accessible: guide to policies and practices (this policy document)
- Making rail accessible: helping older and disabled customers

Our Chief Customer Officer London Underground, through the Customer Experience Lead, ensures that both these documents are reviewed every 12 months.

The Chief Customer Officer London Underground can be contacted at:

### **Palestra**

197 Blackfriars Road  
7th Floor (Green Zone)  
London, SE1 8NJ

The day to day responsibility for the Accessible Travel Policy is held by the Customer Experience Lead, who is responsible for ensuring that policies, practices and procedures support the needs of disabled customers throughout the business by working with other accountable managers. **The Customer Experience Lead can be contacted at the same address.** Managers and staff are made aware of their responsibilities to disabled passengers through briefings.

Staff training is used where appropriate. Equality Impact Assessments are used to ensure that changes and the impacts on disabled customers are systematically considered and implemented appropriately.

### 3. Monitoring and evaluation

A wide variety of data is captured at corporate level with regards to asset availability and performance, for example the availability of lifts, performance of trains, availability of ticket machines and automatic ticketing gates. This is reviewed at Senior Management Level on a weekly basis by the Managing Director of London Underground and their senior managers, through the Visibility Board Process.

As part of this process, any issues are openly discussed with actions assigned to key staff for resolution.

In addition, the Customer Service Centre manager monitors feedback from disabled customers to identify, analyse and remedy any ongoing issues. We will record how many assists we have provided at the 30 stations and will track customer feedback against that.

LU also advocates the use of a wide range of research in order to guide future projects. LU proactively answers queries and complaints received through the Customer Service Centre. We aim to reply as quickly as possible.

LU uses Equality Impact Assessments to ensure that new projects and changes to practices, policies and procedures consider the needs of disabled customers.

## 4. Access improvements

London Underground is committed to improving access to our network.

Any new trains brought onto the network will be compliant with the Rail Vehicle Accessibility Regulations (RVAR) 2010. Where it is not possible to achieve compliance, we will work with the Office of Road and Rail (ORR) and the Department of Transport (DfT) to identify the best possible solution.

We are also working on our older trains to improve their levels of accessibility, and have recently completed a refurbishment to the Northern line fleet with work which has enabled us to provide dedicated wheelchair spaces, improved colour contrast, and visual door closing indicators.

London Underground is investing record levels in step-free access. By 2021/22, 30 more Underground stations will be step-free. This will bring the number of step free stations up to 40 per cent, from the current 26 per cent. Many planned major station upgrades and investment programmes, including Crossrail, the Northern Line Extension and Station Capacity Improvement programmes will also include provision of step-free access.

Other physical accessibility improvements have taken place across the network, including the installation of platform edge tactile paving at all but a few Tube stations, installation of Wide Aisle Gates at the majority of stations, and installation of permanent level access or manual boarding ramps at a large number of stations with step-free access or step-free interchange between lines.

All investment within TfL is carefully appraised and monitored to ensure value for money. As many of the improvements made are part of broader projects to improve customer experience, such as congestion relief schemes, the costs of the various components are not easily separated.

## 5. Working with others

TfL and London Underground work closely with a number of key partners to improve accessibility on the network. These include (but are not limited to) the Mayors Office, the London Boroughs, LondonTravelWatch, Network Rail and other TOCs.

Disabled customers are involved in the decision making process via Transport for London's Independent Disability Advisory Group (IDAG), Valuing People forum, sub-regional mobility forums and other project groups where appropriate. IDAG comprises six disabled customers with a wide variety of experience in transport. More information on IDAG can be found at [content.tfl.gov.uk/idagbooklet.pdf](http://content.tfl.gov.uk/idagbooklet.pdf).

The Valuing People forum is TfL's London-wide forum for people with learning difficulties, which meets three times a year to discuss travel and transport issues. Our sub-regional mobility forums were established to enhance discussions between TfL, the London boroughs and groups for older and disabled people across TfL's five sub-regions.

London Underground holds regular meetings and workshops with disability organisations and other stakeholders in order to ensure that we are providing our disabled customers as good a service as possible. London Underground also works closely with the Disabled Persons' Transport Advisory Committee, attending the Rail Working Group.

Equality Impact Assessments and Access Statements are used while planning projects, to ensure that disabled customers' needs are considered appropriately.

## 6. Staff training

All operational staff and operational managers receive disability awareness training as part of their initial and ongoing refresher training. London Underground has rolled out Disability Equality Training for senior managers and staff.

London Underground has an online module for station staff about hidden disability, designed to highlight some of the issues customers with hidden disabilities may face and how staff can give them excellent customer service.

In addition to class based training, operational staff receive 'on the job' training for all aspects of their role, including the use of equipment such as manual boarding ramps which are extensively used by our disabled customers.

Training courses are available for all corporate staff as part of ongoing continuous development. London Underground Customer Service Centre staff have dedicated training to ensure operatives communicate clearly with people who many have difficulty speaking, hearing or understanding.

The Lead Customer Experience Manager monitors the need for specialist training around accessibility and disability.

## 7. Emergency procedures

London Underground has robust evacuation plans for each station and for trains, produced in conjunction with major stakeholders including the LFEPA (London Fire and Emergency Planning Authority). All staff are aware of their roles and responsibilities in the event of an evacuation, and receive refresher training annually.

Staff have been trained to assist customers in wheelchairs with evacuation, even if this is from a station with no step free access. If this is the case staff will evacuate the customer via the escalator.

Other 'live exercises' are carried out from time to time to ensure our policies function in practice.

## 8. Communications strategy

TfL ensures that disabled people receive the information they need about our range of services in a number of ways, including:

- Engagement work with disabled people's / older people's organisations, at national, pan-London and local levels
- Information sent out to customers subscribing to the TfL Accessibility database and / or the @tflaccess Twitter feed
- Distribution of some publications, including the Step-free Tube Guide and new Accessible Travel leaflets.

TfL is committed to providing accessible online services. All TfL online content will uphold, as a minimum standard, level 'AA' of the WAI's Web Content Accessibility Guidelines (WCAG 1.0). Non-W3C formats (Flash, PDF etc.) or multimedia will only be used where they are the most appropriate format for the content in question. Where non-compliant content is provided reasonable effort will be taken to make accessible and equivalent alternatives available.

## 9. Signage

Signage standards used on the London Underground network are often referenced as industry best practice for signing transport environments. The TfL signage policy was reviewed in 2007 by Centre for Accessible Environments and Transport Design Consultancy. Improvements were introduced following this review to make signage more accessible.

As part of its continuous improvement processes, London Underground is reviewing its accessibility signage to ensure it is intuitive and easy to understand. Various trials will be rolled out on the Jubilee line including reworked diagrams and accessible lift signage.

## 10. Car parking

We have over 350 Blue Badge<sup>1</sup> car parking bays across the LU network, and specifically at the stations below for which the Accessible Travel Policy applies:

- Blackhorse Road
- Harrow & Wealdstone

NCP manages the car parks on our behalf and patrol all bays. They check that a Blue Badge displayed is associated with the vehicle registration number. If vehicles park in Blue Badge bays without a valid Blue Badge they will be issued with a penalty notice.

---

<sup>1</sup> Signage explains that only Blue Badge holders are allowed to park in the bays, and also noting that if all Blue Badge bays are full and a Blue Badge holder needs to park they will then have to pay for a valid ticket.

# 1. Introduction

This document sets out the service that London Underground provides to older and disabled customers using National Rail services at the following stations:

Station	Train Operating Company
Amersham	Chiltern
Chalfont & Latimer	Chiltern
Chorleywood	Chiltern
Farringdon	Govia Thameslink Railway
Greenford	First Great Western
Gunnelsbury	London Overground
Harlesden	London Overground
Harrow & Wealdstone	London Overground, London North Western & GTR Southern
Harrow-on-the-Hill	Chiltern
Highbury & Islington	London Overground and Great Northern
Kensal Green	London Overground
Kenton	London Overground
Kentish Town	Govia Thameslink Railway
Kew Gardens	London Overground
Moorgate	Great Northern
North Wembley	London Overground
Old Street	Great Northern
Queen's Park	London Overground
Rickmansworth	Chiltern
Seven Sisters	London Overground
South Kenton	London Overground
South Ruislip	Chiltern
Stonebridge Park	London Overground
Stratford	TfL Rail, Abellio Greater Anglia & London Overground
Walthamstow Central	London Overground
Wembley Central	London Overground, London North Western & GTR Southern
West Brompton	London Overground & GTR Southern
West Ham	c2c Rail
West Ruislip	Chiltern

Further detail of the facilities provided at each station is set out in appendix A.

Our commitment to our customers is what drives us forward and is what underpins the organisation – from our recruitment, training and ongoing support to staff, to our improvements to our services because every journey matters.

This document relates to only to the train operating company services that call at the Tube stations listed on page three only.

This policy does not apply to London Underground services. For information about the assistance we provide to customers using London Underground services, please see [tfl.gov.uk/transport-accessibility](https://tfl.gov.uk/transport-accessibility).

## 2. Policy summary

London Underground is committed to helping all our customers travel more easily. This includes:

- Improving physical access to and within our stations and trains, including making more stations step-free.
- Providing a range of assistance at our stations on a ‘turn up and go’ basis.
- Providing clear, consistent and up-to-date customer information, which includes station accessibility.
- Alternative transport will be provided where your route is not wholly accessible, **that is not step free from street level to train**, and also when our accessible stations or trains become inaccessible due to planned lift maintenance or unexpected failure

We are continually improving the service we offer to older and disabled customers in relation to all of the above areas. We are committed to making more stations fully accessible across London, meaning that more than a third of the Tube network will be step-free by 2020. TfL has also recommended 21 London Overground and National Rail stations across London to receive Access for All funding from Government to improve connectivity for customers with accessibility needs.

This document sets out our current provision and, along with our policy document ‘Making rail accessible: guide to policies and practices’, is reviewed annually.

We welcome your feedback on the service we provide and any suggestions you may have for improvements. Our contact details are shown on section 11 of this leaflet.

### **3. Assistance for customers**

At the stations listed on page three, we have staff during train operating hours (**first and last train times are available on our website**), who are able to provide the following assistance to older and disabled customers:

- Assistance with boarding and alighting, where not dependant on a manual boarding ramp.
- Assistance with transferring between trains or other types of onward transport calling at our stations.
- Deployment of manual boarding ramps for wheelchair and mobility scooter users at stations with boarding ramps. Please see Appendix A .

Unfortunately, our staff are unable to assist with your personal care before, during or after your journey. This includes help with eating, drinking, using the toilet, taking medication or accompanying passengers when on board. We encourage you to ensure that you have sufficient care or support before travelling on our services.

London Underground services operate a turn up and go service for customers, so you do not have to book in advance. Luggage assistance is not guaranteed on LU's turn up and go service. More information can be found at Transport for London Conditions of Carriage (Bus and Underground Services):

<http://content.tfl.gov.uk/tfl-conditions-of-carriage.pdf>

**We recommend that you arrive with sufficient time, of at least 15 minutes to ensure that our staff are able to assist you make your connection. All stations are staffed while trains are running.**

**To request assistance or make known your booking, please speak to a member of staff, usually located at the gateline, who will be happy to**

help. They will also make sure that staff at your destination station are ready to help you alight.

If you are travelling from one of our stations with step-free access to the train and require assistance at your destination please let a member of staff know before you board the train. We will make sure that someone is ready to provide you with assistance on arrival.

If you have a hidden disability you can choose to carry a Travel Support Card. This is a small card which can be shown to staff when requesting assistance and provides a space to write something about your specific requirements. It can be ordered or downloaded from the TfL website (<https://tfl.gov.uk/forms/12387.aspx?cid=accessguides>).

#### **4. Alternative accessible transport for older and disabled customers**

Where the station is temporarily inaccessible to you

On those occasions when the station is temporarily inaccessible, e.g. when a lift is out of order and you are unable to manage the stairs, or when any replacement service during service disruption is inaccessible, we will assist you to complete your journey by rerouting you to another accessible station, recommending a direct bus route to your destination or provide alternative transport to the next accessible station.

This applies to London Underground services at all stations that are usually step free.

Where the station is not usually accessible to you

Where the stations listed on page three are not usually accessible to you (preventing you from accessing the train) we will provide alternative transport at no additional cost.

When you arrive at the station, we will ensure that alternative transport is arranged to take you between:

- Your station of origin and the nearest or most convenient accessible station and/or
- Your destination station and the nearest or most convenient accessible station.

We only provide alternative transport services in this situation for the stations and operators listed on page three. Onward travel arrangements are done in consultation with the customer. Customers using alternative accessible transport are required to hold a valid ticket for the journey they wish to make.

## 5. Disruption to facilities and services

During service disruption, we will make regular announcements and update our information screens regularly to keep you informed. Our station staff are trained to look for any customers who require assistance, for their onward journey, in these circumstances.

If rail replacement services are inaccessible we will arrange to take you to the nearest or most convenient accessible station from where you can continue your journey without an additional charge.

During planned engineering work on Train Operating Company services listed on page three who operate passenger train services that interface with, but are not the Tube, information will be provided at our stations and also through other communications channels for customers of alternative transport options and duration of works. Customers are advised to check National Rail Enquiry Services <http://www.nationalrail.co.uk/>

In any emergency situation or unplanned event we would provide assisted travel including taxis for those who are unable to complete onward travel by other forms of public transport.

## 6. Customer information

General

We aim to provide clear and consistent information regarding train departures and we work closely with other Train Operating Companies to ensure that our information provision is in line with industry good practice. Our staff are available to provide up-to-date information and there are also customer Help Points, fitted with induction loops, on the vast majority of our stations.

We provide information about the accessibility of our stations, including the stations listed on page three and on the TfL website, at [www.tfl.gov.uk/travel-information/stations-stops-and-piers/](http://www.tfl.gov.uk/travel-information/stations-stops-and-piers/)

We provide real-time information about the accessibility of our stations, including the stations listed above, on the TfL website, at [www.tfl.gov.uk/plan-a-journey/](http://www.tfl.gov.uk/plan-a-journey/)

Customers can also contact our Customer Service Centre on 0343 222 2000 where we have a dedicated team of staff trained in helping disabled customers. This service is available 24 hours a day, except Christmas Day.

We also offer a textphone service on 0800 112 3456. More information is available here: <https://tfl.gov.uk/transport-accessibility/help-from-staff>

Our station staff have access to the TfL website and National Rail Enquiries website and can provide information about our facilities, services and the accessibility of our stations. We are committed to keeping industry databases updated with any changes to the accessibility of facilities and services at our stations to ensure that information on the National Rail Enquiries and TfL websites are up to date. **We will update this information within 24 hours of notification of any changes.**

Information about TfL Rail and London Overground services

Information about the accessibility of London Overground stations and trains is available on both the TfL website and National Rail Enquiries website ([www.nationalrail.co.uk](http://www.nationalrail.co.uk)). This includes stations maps on the 'Stations Made Easy' pages. Details of who is responsible for updating this information and when is available in the London Overground Disabled People's Protection Policy at the following link:

<http://www.arrivarailondon.co.uk/downloads/ARL161108-DPPP-Making-Rail-Accessible-Large%20Print.pdf>

## Customer information (continued)

Information about Chiltern, c2c, First Great Western, Govia Thameslink Railway, Abellio Greater Anglia, London North Western, GTR Southern and Great Northern services

Information about the accessibility of other services stations and trains is available on the National Rail Enquiries website ([nationalrail.co.uk](http://nationalrail.co.uk)). This includes stations maps on the 'Stations Made Easy' pages. Details of who is responsible for updating this information and when is available in the Disabled People's Protection Policies for the relevant Train Operating Company.

The following maps and guides are also available from [www.tfl.gov.uk](http://www.tfl.gov.uk)

- Audio Tube map

A guide to Tube, Docklands Light Railway (DLR) and London Overground with information on Tube and DLR station facilities at [tfl.gov.uk/accessguides](http://tfl.gov.uk/accessguides)

- Large print (colour or black and white) Tube maps

These include Tube, DLR, London Overground and TfL Rail and are produced for visually impaired/colour-blind customers; available at [tfl.gov.uk/maps](http://tfl.gov.uk/maps)

- Getting around London – Your guide to accessibility

This provides help with planning journeys using Tube, DLR, London Overground, buses, taxis and private hire vehicles, trains, trams and riverboats; available in large print and Braille at [tfl.gov.uk/accessguides](http://tfl.gov.uk/accessguides)

- Step-free Tube guide

This identifies and gives further details on step-free access at Tube, DLR, London Overground and TfL Rail stations at [tfl.gov.uk/accessguides](https://tfl.gov.uk/accessguides)

- **Avoiding Stairs Tube Guide**

This identifies and gives further details on stair-free access at Tube, DLR, London Overground and TfL Rail stations at [tfl.gov.uk/accessguides](https://tfl.gov.uk/accessguides)

- Tube toilet map

The locations of toilet and baby changing facilities on the Tube, DLR, London Overground and TfL Rail at [tfl.gov.uk/accessguides](https://tfl.gov.uk/accessguides)

## 7. Tickets and fares

All customers need a valid ticket or Oyster card to enter and exit London Underground stations. These can be purchased using ticket machines at the station or by using a contactless payment card/device. A member of staff can help you to use a ticket machine should you require assistance. If you have an Oyster card, and this is valid for use on the National Rail journey you are making, you can top up in advance by telephone, on the internet, via the TfL mobile app, at the station or at an Oyster Ticket Stop. You can also use auto top-up to add pay as you go to your card automatically when the balance falls below a certain level.

If you are unable to buy a ticket before your journey because our facilities are not available or accessible to you for any reason, you may buy a ticket without penalty (i.e. including any applicable discounts) at your destination.

**We don't offer discounted/free travel to those with disability except for wheelchair users on buses and people with a disability can apply for a Freedom Pass to their London Borough.**

Local borough councils provide Freedom Passes to give older and disabled Londoners free travel on almost all public transport in London. Freedom Pass holders may travel free on Tube, DLR, London

Overground, TfL Rail, bus, tram and National Rail services. Although time restrictions apply on some National Rail services, Freedom Pass holders may travel on London Overground services at any time. For more information on applying for a Freedom Pass, you should contact your local council – call 0300 330 1433 or visit [www.freedompass.org](http://www.freedompass.org). **This website includes a map of the services you can use the pass on and time restrictions.**

If you hold a Disabled Persons Railcard or a Senior Railcard, you are entitled to discounts on some tickets. You can set a discount entitlement on your Oyster card to get reduced rates on off-peak pay as you go single fares and the off peak daily price cap. More information on these fares, including the 60+ Oyster Photocard can be found at [tfl.gov.uk/fares](http://tfl.gov.uk/fares)

For information on disabled and senior persons railcards please visit the following websites:

<https://www.disabledpersons-railcard.co.uk/using-your-railcard/the-benefits/>

[https://www.senior-railcard.co.uk/?nreTrack=seniorrailcard&\\_ga=2.174139553.202317150.1547661982-332060675.1537803206](https://www.senior-railcard.co.uk/?nreTrack=seniorrailcard&_ga=2.174139553.202317150.1547661982-332060675.1537803206)

Visually impaired customers without a Railcard are entitled to discounts when travelling with a companion. ~~Wheelchair users are also entitled to discounts without a Railcard in some cases.~~ You may be asked to present your Disabled Persons Railcard, Senior Railcard, Certificate of Visual Impairment (CVI) or BD8 certificate to ticket inspectors on the train.

Additionally, details on the 60+ London Oyster photocard are available at <https://tfl.gov.uk/fares/free-and-discounted-travel/60-plus-oyster> please note that this is not available for those who are eligible for an older or disabled persons Freedom Pass.

More information on tickets and fares can be found at [tfl.gov.uk/fares](http://tfl.gov.uk/fares) and on the National Rail Enquiries website ([nationalrail.co.uk](http://nationalrail.co.uk)).

## 8. At the station

### Station entrances and ticket gates

London Underground is committed to maintaining the accessibility of our stations and will not permanently close any station or gate if this will lead to a reduction in accessibility for disabled customers.

Where our stations have automatic ticket gates, these are staffed when in operation. If for any reason we are unable to supervise ticket gates we will switch them to the 'open' position. London Underground has installed wide aisle gates at the majority of our stations to enable independent access for all.

### Real-time information

Real-time information is provided at most of our stations; visually via service update boards located in ticket halls and audibly via the station public address (PA) system. These systems are also used to provide information when there are service disruptions or delays. In locations stations we have dot-matrix screens on platforms which show next train information and where possible this is accompanied by automated PA announcements. We will also give audio and visual information when there are service disruptions on other modes within the London area.

### Help points

Help and information can be obtained in all London Underground ticket halls where staff will be present. In the event that staff are not apparent, we have Help Points at most London Underground stations. Customers can use the Help Point to contact a member of staff. Help Points are fitted with induction loops **and are under CCTV observation.**

### Customer information

We provide a range of customer information at our stations, including timetables and Rail and Tube maps at stations with interchanges to National Rail services, Station Services posters, fares information and information about planned closures. Station staff have mobile devices

and are able to access a wide range of information to help you plan your journey.

### Ticket machines

All stations have at least one ticket machine at a height accessible to wheelchair users. Staff can assist with purchasing tickets from our ticket machines.

### Wheelchairs and mobility scooters

There are restrictions on the size of wheelchairs and mobility scooters that you can bring onto many National Rail services – please check with your train operator for more information.

### Manual boarding ramps for wheelchair and mobility scooter users

Manual boarding ramps are available to help wheelchair users to board trains at many stations. These are safe to use for maximum weight of 300kg (you and your wheelchair / mobility scooter combined). Please speak to a member of staff when you arrive at the station and they will organise this for you and call ahead to your destination if necessary.

The priority of our staff when offering accessibility assistance is safety of the customer and the safety of themselves. Once a manual boarding ramp (MBR) is deployed, against a train to ready a wheelchair user to get to/from the train and platform, our staff should offer the customer assistance with boarding and alighting - while negotiating the ramp. They are briefed to do so in their training. If a staff member is medically fit to deploy the ramp then they should be competent to help the wheelchair user on/off train.

However, if the staff member believes the wheelchair and its occupant exceeds 300kg they can refuse to assist with boarding/alighting on safety grounds. At all times we ask our staff to be as helpful as possible taking a common sense approach, with safety being the priority.

For more information on this facility see Appendix A.

## 9. On the train

For full details of services and facilities on the TOC's services. Please refer to their respective websites at this link:

[http://www.nationalrail.co.uk/tocs\\_maps/tocs/TrainOperators.aspx](http://www.nationalrail.co.uk/tocs_maps/tocs/TrainOperators.aspx)

## 10. Making connections

We are happy to provide assistance to any customer making connections to other train services calling at the stations **listed on page three only**. This includes providing help with boarding and alighting.

London has a wide range of accessible transport options to help everyone get around. An increasing number of London Underground stations are step-free. London Buses operate all services, except heritage routes, with low-floor vehicles with wheelchair ramps, enabling all customers to get on and off easily. The DLR and London Trams are fully accessible. All licensed taxis (black cabs) are accessible to people using wheelchairs.

## 11. Contact us

Our Customer Services Team is available for you to find out more about London Underground services and stations or provide feedback on the services and facilities that we provide. You can contact them by:

Post: TfL Customer Services, 4th Floor, 14 Pier Walk, London, SE10 0ES.

Telephone: 0343 222 1234 (24 hours, 364 days a year, closed Christmas Day)

Textphone: 08001 123 456

Website: [www.tfl.gov.uk](http://www.tfl.gov.uk)

If you would like to find out more or give feedback about the National Rail services referred to in this document, please contact the relevant Train Operating Company.

You can obtain the latest version and further copies of this document and our guide to policies and practices from our Customer Services Team or at [www.tfl.gov.uk/accessguides](http://www.tfl.gov.uk/accessguides). A large print version of this document is available upon request and will be provided within seven working days. Other formats can be provided on request, and we will **meet these** requests within seven working days.
