

# **The Railways and Other Guided Transport Systems (Safety) Regulations 2006 (as amended) (ROGS)**

## **Approved list of systems excluded from the scope of the mainline railway requirements**

This list is kept by the Office of Rail Regulation in accordance with regulation 2A of ROGS and was last updated in December 2017.

### **Metros and other light rail systems**

East London Railway (Highbury & Islington station to New Cross station and New Cross Gate station via Whitechapel: only those tracks used exclusively by ELR between Highbury & Islington and Dalston Junction.

East London Railway (Surrey quays station to Old Kent road junction where the ELR will meet the existing rail route between South Bermondsey and Queen's Peckham stations.

Glasgow Underground (Subway)

London Underground vehicles and heritage vehicles, and other structural subsystems provided predominantly for the provision of London Underground services, or provided predominantly to ensure the compatibility of other services using LU infrastructure

Tyne & Wear Metro (including vehicles running over Network Rail infrastructure)  
Docklands Light Railway

Tram-Train (vehicles only when running over Network Rail infrastructure) (*proposed*)

## **Networks that are functionally separate from the rest of the mainline railway and intended only for the operation of local, urban or suburban passenger services as well as transport undertakings operating solely on these networks**

Island Line: Isle of Wight (Ryde to Shanklin)

Old Dalby Test Track, Melton Mowbray, Leicestershire

Stourbridge Town Branch Line: West Midlands (Stourbridge Junction to Stourbridge Town)

## **Heritage, museum and tourist railways that operate on their own network**

**Note 1:** Reference to rail systems in this category includes vehicles that are used (mainly) on any of the listed infrastructure - if such vehicles under this category are occasionally used for operation on the mainline railway (for example, a steam tour), then they continue to be excluded from scope, with respect to that operation subject to compliance with Note 4 below.

**Note 2:** All infrastructure and vehicles with a track gauge of 350mm or under are considered as automatically excluded from scope through blanket exemption in ROGS, even though some such rail systems might be included in the list below.

**Note 3:** See also Note 5 below in relation to tramways.

## Heritage vehicles that operate on the mainline railway and comply with 'national safety rules' as defined in ROGS

**Note 4:** *In addition to complying with all applicable national safety rules, heritage vehicles operating on the mainline railway must also comply with the industry standard RIS-3440-TOM for operation of heritage vehicles on the mainline railway in order to meet the conditions of this exclusion.*

North Yorkshire Moors Railway

Swanage Railway

## Trams and Tramways

**Note 5:** *The definition of 'railway' in ROGS does not include tramways, so they are automatically excluded from the scope of the mainline railway requirements. Some sections of the mainline railway that are street running and operate by line of sight may fit the definition of 'tramway'. To clarify that the mainline railway in these circumstances is not excluded, tramways have been added to this list.*
